Ogarkov's Views on Defense Seen as Clue in Soviet Shake-Up

By Bernard Gwertzman New York Times Service

WASHINGTON - A senior Soviet diplomat has told U.S. officials that Marshal Nikolai V. Ogarkey was demoted as head of the Soviet armed forces because of "m-party-like tendencies," administration officials said Wednesday.

Soviet diplomat was made last Friday. That was the day that Tass, the Soviet press agency, announced that Marshal Ogarkov had been replaced by his deputy, Marshal Sergei F. Akhromeyev, as armed forces chief of staff and first deputy

Administration officials would not identify the diplomat by name. Some officials see the comment as an indication that Marshal Ogarkov might have been disover allocations for the Soviet mili-

If in fact, a policy dispute led to the marshal's dismissal, some of the reasons for the move might be found in an interview with him published May 9 in Krasnaya Zvezda, the army daily.

In the interview, Marshal Ogarkov appeared to argue that the deployment of new American medinot increase the chances of an main enemy. The point is, with the American "first strike" against the quantity and diversity of nuclear could escape a devastating retalia- enemy's systems with a single

Pope John Paul II greets young admirers at a rally in St. John's, Newfoundland.

Pope Calls for Use of Public Funds To Help Finance Religious Schools

By E.J. Dionne Jr.
New York Times Service

ST. JOHN'S, Newfoundland -Pope John Paul II has issued a strong call for public financing of religions schools, arguing that "we cannot leave God at the school-

The pope's call came Wednesday evening in an address here to Robly was unhappy with the way the man Catholic educators at the Ba-Soviet economy was servicing the silica of St. John the Baptist. His remarks came at a time when relaed more of a commitment than he tions between governments and church schools are a central politi-

France and some other countries.

John Paul's position is consistent with past statements by the Roman Catholic Church, which has been in the forefront of battles for state assistance to religious educational institutions.

Earlier Wednesday, the pope issued a stinging criticism of eco-nomic systems that respond "only to the forces of the marketplace" that also was consistent with past

Despite his reputation as a conservative on questions of sexual

cal issue in the United States, morality and feminism, John Paul has been a frequent critic of many

When questioned about the ope's statement on schools, the Vatican spokesman, the Reverend Romeo Panciroli, said it was not pecifically intended for the United States, but was "generic" and referred to "all types of schools in any country in the world."

In the United States, almost all forms of state aid to religious schools have been ruled unconstitutional by the Supreme Court. The court also has banned organized prayer in the public schools.

The Reagan administration, supported by many church groups, is seeking a constitutional amendment to overturn the ban on school raver. President Ronald Reaga also favors legislation that would give tax credits to parents paying for their children's education in private schools.

Proponents say the tax credit plan is constitutional because it involves a benefit given to individuals and not directly to religious

In his speech to the educators, the pope asserted "the right of parents, of families, to choose according to their conviction the kind of education and the model of school which they wish for their children."

"Society," John Paul said, "is called to provide for and support with public funding those types of flation running at an annual rate of

aspects of capitalism and a proclaimed defender of the rights of workers.

But both addresses represented unusually blunt statements on highly contested and essentially political themes. In the United States, the relationship between religion and politics has become a central issue in the presidential

Bob and Sylvia Vollenhoven with their son at their home. Pheir marriage is not recognized under South African law,

By Alan Cowell New York Times Service

CAPE TOWN - Since she married, Sylvia Vollenhoven says, she has lost a lot of her friends. Her husband, Bob, says he does not see too much of his prenuptial buddies, either. When they walk together on the streets of this city, a professed haven of bberalism, people sometimes stop, they say, to insult them. Sylvia and Bob are not of the same skin color, and thus represent one of South Africa's few -- and totally

that is, mixed-race descent. Bob, an Englishman, is Their son, Ryan, is also labeled "colored," but not quite the same classification as his mother. He is Cape colored;" she, being darker, is "other colored." In England, where they married, they are man and wife; in South Africa, where their marriage is not recognized, they are sinners beyond the domain of

nation's catalogue of racial distinctions as "colored,"

Love, thus, must prevail against a host of laws designed to deflect it. And their relationship highlights what, to the outsider, seem to be anomalies and oddities in the system of interlocking legislation designed to keep white and nonwhite apart and to thwart those who would dilute perceived purities of race. The street where they live, for instance, in a suburb

glamorized -- lies in an area set aside by the Group Areas Act for white inhabitation. Sylvia and Ryan, thus, are there illegally. Were they to move a couple of blocks, into a "colored" area, Bob would be illegal and the rest of his family would conform to the law.

Bob, who makes a living repairing television and video equipment, may go to some movie houses from which his wife and son are barred. If they want to go on vacation, they have to drive nonstop to independent Lesotho or Swaziland, for, even in those South African hotels called "international" that admit nonwhites, they may not, by law, share a room because that would offend the Immorality Act and the Mixed

Marriages Act. The sexual laws were framed by the Afrikapers, South Africa's dominant white group, to keep the races within their own classified frontiers. Yet the classification of "colored" would not exist were it not for miscegenation between black and white that the law sets out to deny. Recent academic studies have discovered a mixing, set arithmetically at around 8 percent, in much Afrikaner blood.

Bob, 31 years old, and Sylvia, 32, a reporter for a Sunday newspaper, married four years ago, and, since problem. then, they said in an interview, there have been strains. In the apartment where they first lived, Bob said, the police staged a raid in the middle of the night, ostensioly looking for drugs. Sylvin was seven months called Woodstock - ripe for gentrification but not vet preparant. The apartment was in a "white" area.

among militant blacks than among most whites.

"So you make a choice of where you live, in certain places inside Cape Town that feel safe," he said. "I can't think of any other place in South Africa where I

would even consider it." They have not, he said, been troubled by the authorities in Woodstock.

When they returned home from their wedding, they went out for dinner at a restaurant in Hillbrow, a relatively cosmopolitan area of Johannesburg. The restaurant owner, a Portuguese immigrant, used abusive language because of Sylvia's skin color, so they

had to leave, they said. Their son, Ryan, is four years old, and the schisms of the society that surrounds him are already becoming apparent. At present, he goes to an Anglican Church school, Sylvia said, but, later, there will be a

"People object to élitist hlacks sending their kids to private school," she said. "And you have a problem with your own principles in sending a child to an elitist school, with all that that implies, rather than him backgrounds."

They moved to another place, in a "colored" area. being rejected by black society. He stands only a slim

I here was a degree of suspicion, but people could see it was serious, they could see I was not one of the oppressors," he said, using language more current among militant blacks than among more more markets.

Thus, implicitly, Ryan will occupy, like many others among South Africa's 2.8 million "colored" people, a twilight middle ground between other races. Defined as being neither white nor black, with no language of their own, they are caught in a blur of identities, drawn into the gradations and divisions of the nation.

Some older "coloreds," Sylvia said, will identify more with whites against blacks, seeing a superiority in the relative lightness of their skin. Others, younger and more radical, like Sylvia herself, will eschew the label "colored," terming all nonwhite people black and identifying with a breader struggle.

The marriage offends many. According to Bob, there are two discernible groups who most often insult them in public: young black men and middle-aged white women.

"For me," Sylvia said, "the most important pressure was that I lost black friends by getting married to Bob. People feel so strongly about black-white relations for different reasons. So many relationships can never be school I would much rather send Ryan to a state normal hecause you come from different

Reagan Presses Attack

On Mondale Tax Plan

* Rallies in New York

ENDICOTT, New York - Pres-■ Mondale Accuses Reagan has esserted that Walter F. Mon-

Paul Taylor of The Washington Post reported from Peorta, Illinois: Mr. Mondale said Wednesday that Mr. Reagan was not revealing his budgetary plans because the president intends to introduce a 2percent national sales tax next year and hit the most vulnerable Americans with more of the "cruel, uncaring and mean" budget cuts proposed in his first term.

"Mr. Reagan is stonewalling the American people, and that won't play in Peoria," Mr. Mondale told an enthusiastic crowd of about 3,500 people at a lunchtime rally downtown. You want plans, not. alibis; answers, not arrogance; ac-

tion, not irresponsibility."

The rally was by far Mr. Mondale's best event in what has been a lukewarm week of crowd reaction

Earlier, at a question-and-an-swer session with students and faculty members at Scott Community College in Bettendorf, Iowa, Mr. Mondale assumed the role of economics professor as he stationed himself in front of two charts and dramatized the impact of Reagan administration deficits on what he

termed a typical family.

According to the charts, a family of four earning \$25,000 a year must pay \$196 a month, or \$2,452 annually, to cover annual interest on the federal budget deficit. But, according to the Internal Revenue Service, such a family pays taxes of \$2,834 each year.

Interest payments on the federal deficit account for 13 percent of government spending and 25 per-cent of non-dedicated tax revenues, sented a package of tax increases meaning that, even by the most generous calculation, the most such would reduce the federal budget a family could be said to pay each deficit for the fiscal year 1989 to year in interest on the federal defi-

month figure was derived by dividing this year's \$111-billion interest The Democratic presidential payment into the nation's popula-candidate called on Mr. Reagan to tion, although that approach asoutline his own tax and spending sumes that everyone, including intentions. So far, the president has children, pays taxes.

Poll Gives Reagan a 16-Point Lead, With 2-1 Backing From Independents

WASHINGTON - President Ronald Reagan, drawing extraordinary support from Republican and independent voters, holds a 16-point lead over his Democratic challenger, Walter F. Mondale, according to a Washington Post-ABC News poll.

Mr. Reagan is ahead in every region, among women as well as men and among voters in all age groups, according to the poll.

The survey, conducted from Sept. 6 to 11, shows Mr. Reagan leading Mr. Mendele by \$6 percent to \$0 percent according to the poll. leading Mr. Mondale by 56 percent to 40 percent among registered voters, with 4 percent undecided. That is a gain of nine points for the president since just before the Democratic National Convention in July, when a Washington Post-ABC News poll showed him ahead, 51-

Mr. Reagan received support from 96 percent of Republicans surveyed. Among independents, be was favored 2-1 over Mr. Mondale. Of the Democrats surveyed, 23 percent supported Mr. Reagan, while 73 percent backed Mr. Mondale.

But the poll suggested areas in which the president might be vulnerable. By a 2-1 ratio, those polled saw him as siding with special interests; about half of those surveyed said they were not better of financially than when Mr. Reagan took office; and he was seen as less

financially than when Mr. Reagan took office; and he was seen as less likely than Mr. Mondale to keep the United States out of war.

But the poll also appeared to confirm Mr. Mondale's inability to impress voters that he is a leader, with only 37 percent saying be had strong leadership qualities. It also indicated that most voters expected to be better off financially under Mr. Reagan than they would be

By Philip M. Boffey

New York Times Service WASHINGTON - The American Psychiatric Association has described the practice of discharging mentally ill patients from state hos-pitals into ill-prepared local com-munities as a failure and "a major societal tragedy."

In its first comprehensive report on the homeless mentally ill, the association said Wednesday that the concept of shifting the chronic mentally ill from large institutions to community treatment facilities was "basically a good one" but that its "implementation was flawed." The association, the nation's

chief professional organization for psychiatrists, said a "disastrous" failure to provide adequate mental health care in the community, or even such basic needs as shelter and food, had left tens of thousands, perhaps even a million or more, of the mentally ill "cast making wise choices for themselves adrift under conditions that most persons think can no longer exist in this country.

"Hardly a section of the country, when or rural," the report said,
"has escaped the ubiquitous preseace of ragged, ill and hallucinating
himan beings, wandering through
our city streets, huddled in alleyways or sleeping over vents."

The association blamed virtually everyone involved in the care and treatment of the mentally ill or the homeless for some aspect of the

It asserted that federal, state and local governments had failed to provide enough money for ademate health care and social ser vices, that "patients' rights" lawyers had been more interested in getting patients released than in ensuring that they are cared for, that mental health professionals had sometimes shied away from dealing with the most severely ill patients, and that psychiatrists themselves were slow to wake up to the dimensions of the problem. In New York State, which is

"considered to be in the forefront of the nationwide de-institutionalization movement," the report said, state and city officials have consis-tently allowed "the blame to be shuttled back and forth," But the chief underlying problem in New York City, the report said, is that there is simply not enough mexpen-sive shelter or housing available, a need that must be met before mental health care can succeed.

The concept of removing the mentally ill from overcrowded institutions began 30 years ago, according to the report. It has since cut the number of patients kept in large public mental hospitals by three-fourths, from a peak of about 559,000 in 1955 to about 132,000 in 1980, the association said.

The movement began with "little preparation or planning," accord-ing to the report, and was propelled by at least four major factors.

New drug treatments allowed patients to be treated outside of institutions; a new mental health philosophy concluded that most in-dividuals were better treated in their home communities than in warehouse-like mental hospitals; legal and legislative pressures called for granting more freedom and dignity to patients, and finan-cially pressed state governments hoped to save money by shrinking or closing their mental hospitals.

The association's views were presented in a 313-page report notable for its blunt language. The report was described as the first major effort to determine who the homeless mentally ill are, how sick they helping totalitarian forces in El Salvador," Mrs. Kirkpatrick later said, referring to occasional reports of some Americans helping the Salvadoran guerrillas.

and what soft or plant hight helping them. It was the outgrowth of a yearlong study by a nine-member study group, which operated with a doran guerrillas.

Airlines Agree on Schedule Changes To Reduce Delays at U.S. Airports

By Reginald Stuart
New York Times Service

ARLINGTON, Virginia — Airline industry representatives have reached tentative agreement on a broad package of schedule changes to reduce delays at six major U.S.

The final burdle was a plan for Newark International Airport, debated for eight days of often heated bargaining between government officials and negotiators from 100 domestic and foreign airlines. The plan agreed on Wednesday evening would increase the number of flights to and from the New Jersey airport in most of the peak hours.

The tentative Newark agreement is part of a plan to ease congestion and delays beginning next month at the three big airports in the New York City area and airports in Chicago, Atlanta and Denver. Earlier agreements for the two other major airports in the New York area, La Guardia and Kennedy, would space flights at peak hours more evenly but would not reduce or increase them.

The Federal Aviation Administration has accepted the plans but the airlines still must agree upon specific arrival and departore schedules and submit them to the Civil Aeronautics Board, the regu-latory agency. The FAA, which is in charge of air traffic control, also must accept the final detailed Reagan, who argued in a January

television interview that many peo-The Newark plan provides for pie sieeping on grates were home-less "by choice." Preschooled to Escape

American society does know one sure way to lead poor children out of a life of poverty.

The remedy has different names - Project rieadstart, developmental day care, nursery school — but the idea is the same; high-quality preschool education, And it works.

Why do poverty's children do so badly in school and life? People have long treated that as a mystery. There have been positive results, ike those of Project Headstart, the mass preschool program of Lyndon Johnson's "great suciety." But even then people seemed determined to minimize the findings and hide behind the mystery of failed research. Now the evidence will be hardenark study has followed the lives of 123 black shides from the death

the lives of 123 black children from the depth of deprivation, many from single-parent homes. Half of them were given high-quality preschool education beginning at age 3. The hers followed the traditional path of schooling. Now, the participants are almost 20 years id and the contrasts are remarkable.

The report on the privately funded study is ntitled "Changed Lives," and rightly so. Nearly twice as many in the preschool group have gone to work or gone on to college or rost-high sebool vocational training. Some 20 purcent fewer had dropped out of school or had brushes with the law. The High-Scope iducational Research Foundation in Ypsilan-

There is startling news from a long, rigorous research project in Michigan, Yes, after all the years of experiment and disappointment, society has saved about \$3,100 on each person in the preschool group. And that is just the most easily quantifiable saving, trivial com-pared with the long-term gains. For example, the preschool group required far less remedia-tion in elementary and high school, and as a result gained the self-confidence essential to success in school and life.

Too much can be read into the "Changer Lives" results. The graveyard of educational experiments is filled with cut-rate imitations of successful pilot projects. The Michigan experiment worked because the preschool education it provided was of high quality.

Nor can the results be taken as a cure-all for, poverty and deprivation. Early childhood education has improved the youngsters' prospects considerably — but not enough. It has only reduced the negative effects of a miserable environment. Not even the highest quality preschool education can substitute for reforms

that reach beyond education. But so what if this is not The Perfect Answer? For many youngsters, an early, caring start means an opportunity to escape from the cycle of poverty. It means that defeatists are wrong when they lament that nothing works and that "research shows" that compensatory education has failed. A 20-year study in the laboratory of life now shows that there is good to be done, if society is willing to do it. -- THE NEW YORK TIMES.

reaucratic hurdles on the American side for either the camp inmates or the children. The total numbers, in the low tens of thousands at most, are only a fraction of the nearly threequarters of a million Indochinese refugees that America has absorbed in the past decade. The channel by which they will presumably come, the United Nations-sponsored Orderly Depar-ture Program, has worked for more than 60,000 departing Vietnamese in the past five years. Their entry into that channel should have the further blessed effect of reducing the number of Vietnamese who, in desperation,

chance the perils of flight by sea.

The re-education camp immates are marked in Hanoi's eyes by political association with Americans, and the Asian-American children by blood association. Both groups have suffered severely in Vietnam, and both — with their "qualifying family members" — have an absolute claim on American generosity and goodwill. The visit of North Vietnam's foreign minister to the United Nations later this month is not too soon for the United States to start following up on Secretary Shultz's pledges to give them special help.

In the American Way, Moral Conviction Is Private

ARIS — It seems strange that the relation
of religion to politics should now be a prime
issue in the U.S. presidential campaign. The
relation has long been argued about in Europe,
but the Americans who wrote the Bill of Rights
thought they had settled it for the United States.
True, the question continued to surface in
oblique ways. The last time was during John F.
Kennedy's campaign, when it was smalley sog-Kennedy's campaign, when it was smidely sug-gested that as a Roman Catholic be might put allegiance to his church ahead of allegiance to his

scenario. Voters rejected the charge, and it seemed that another milestone had been passed. Now, curiously, the challenge is being put the other way around, as though the Constitution

other way around, as though the Constitution ought to be subordinate to the pulpit.

Governor Mario Cuomo of New York, for example, has been criticized (in a letter from Dennis Patrick Duquette published in The New York Times) as an "example of the insipid attitude of some Catholic legislators who would like the public to believe that two hats can coexist on the same head with regard to the abortion issue, with absolutely no conflict of conscience."

The abortion debate has been gravely distorted by revising the question. Opponents argue that abortion is immoral, but that is not the issue. Many things are immoral (lying, adultery, being mean, dishonoring parents) but not illegal. What the so-called pro-life movement wants is

to make abortion a crime, punishable by the judicial system to which all taxpayers contribute.

Calling themselves "pro-life" is itself an invidiBy Flora Lewis

ous twist of language. As one wag put it, they seem to think life begins at conception and ends at birth. But nobody is suggesting that abortion is good for people, only that the government should not use its police and financial powers to penalize those who are driven to it by distress. The political issue is law.

The Reagan administration, to please its militant supporters, would even like to muith for-

tant supporters, would even like to punish foreign countries that accept abortion in their des-perate attempt to contain exploding populations, by denying those countries appropriated aid for

by denying those countries appropriated aid for family-planning programs.

Even Mr. Reagan has backed away from his Dallas prayer breakfast declaration that politics and religion are "inseparable." In Salt Lake City he remembered the "wall in the Constitution separating church and state." Yet he went on to say: "Let me repeat what I have always believed. Religion is one of the traditional values which deserves to be preserved and strengthened." deserves to be preserved and strengthened."

Fine, but that "wall" in America's fundamental charter makes clear that this is not to be done

by law. It is to be left to individual conscience, family and clerical establishments whose expressions are protected from interference of the laws. In the same way the question of prayer in the public schools has been turned backward, as though the issue were whether children should be allowed to pray. Nobody has ever tried to stop

them if they choose. The political issue is whether there should be a law providing for the organiza-

tion of prayer in public schools.

Mr. Reagan said that those who are opposed "twist the concept of freedom of religion to mean freedom against religion." They do not, but in any case the Constitution also guarantees the right of nonbelievers not to practice any faith without running afoul of the law. The president said that "those who are attack-

ing religion claim they are doing it in the name of tolerance ... Isn't the real truth that they are intolerant of religion?" To begin with, who in the United States has been attacking religion lately? Certainly no speech-making politicians, and if there are others, they have been muttering their blasphemies so quietly that only Mr. Reagan's sharp ears seem to have heard.

And if they do, should a law be passed impos-And it they do, should a law be passed imposing a fine, a jail sentence, some other punishment? That same First Amendment to the Constitution also states that "Congress shall make no law ... abridging the freedom of speech," That includes the freedom to attack the Constitution, which would be deplorable but not illegal.

Morality is indeed a proper subject for public

concern. Some things, such as marder and theft, are both immoral and illegal. But government provides a rule of law, not of faith or ethics. The question before the electorate is what the law should provide and punish, not what people believe. That is the American tradition.

The New York Times.

When the Republicans Keep the Chair by Default

P ARIS — Nearly everyone thinks that Ronald Reagan will be re-elected in November, and many of his supporters think this means that America is set on a conservative course from which it will never look back. The new Reagan conservatives nent shift not only in political de-mography, from liberal Northern in-dustrial cities to the conservative Sun

Belt, but also in the way the social classes that once voted Democratic now identify their interests. Against this, the historian and bberal publicist Arthur Schlesinger Jr. makes an argument that American politics is cyclical: During the past two centuries periods of activism and

reform have regularly been followed by times of retreat and the pursuit of private interest. This causes Mr. Schlesinger to believe that the late 1980s or early 1990s will see a liberal reform administration back in power. He finds an explanation for these cycles in the experience of political generations (each group of reformers having its decisive early experience under the preceding reform genera-tion) and the normal phenomenon of policies that run their course, wear out their welcome and provoke a re-action that in turn eventually pro-

on market mechanisms and tax cuts electing Rouald Reagan was merely. is traditional Republican Party doc- the available means to that end. trine. (In practice, lower taxes and bigher spending have produced colossal deficits, which is not what Mr.

When people grow restless with the new conservatism, the Schlesinger argument goes, it won't much matter mised.) Deregulation and laissez-faire are familiar stuff. So is a bellicose auti-communism. Yet the Reagan program has been presented as radically new, and in the context of the dominant Keynesianism and lib-eral internationalism of the last half century, perhaps it was. Eventually, however, it will run its course.

The currents of popular social conservatism, fundamentalist public moralism and nationalism of the "We're number one!" kind, which Mr. Reagan has been riding, will pass. They are little different from what America suffered and survived between 1919 and 1932—the years of Attorney General A. Mitchell Palmer's anti-radical raids, prohibitions of the promoter of the prohibition of the prohibi

tion, monkey trials, boom-and-bust. On the other hand, it is not so easy to share Professor Schlesinger's confidence in a bright new deal to follow. He says that it doesn't much matter what kind of program the opposition offers when the political cycle is ready to end. People vote to get rid of duces a new call for change.

Mr. Reagan's conservatism is thin intellectual content. Its emphasis

They deposed Jimmy Carter in 1980; self collapsed under pressure of its

DOCTAIS OTIET

I am not so sure. The new American conservatism has been greatly reinforced by the exhaustion of those bberal ideas ("liberal" in the American sense, meaning on the moderate left) which, with different emphases and in changing language, have been crucial to politics since the progres-sivism of Theodore Roosevelt and the populism of the turn of the century. This collapse of bberalism seems to me a major datum of the present American scene, and virtually certain

to have a more lasting effect than the Schlesinger theory would allow. The liberals is an honorable failure, which follows from past success. Liberalism's big battles were won years ago in the United States. A new

agenda has yet to be found. There is no agreement among Democrats today on what it should be. The administration of Lyndon Johnson was the last in the United States with major liberal reform am-bitions, those of the "great society." Those ambitions ended in disapinability to sustain popular support for the Vietnam War - conceived as

mestic or in foreign policy.

Welding High Tech In Europe

By Giles Merritt

 $B^{\text{RUSSELS}} - \text{Should Europe's} \\ \text{battered electronics and tele-}$ communications companies be encouraged to forge powerful crossborder alliances to repel the Japanese and American invaders? Or should such combines instead be explicitly forbidden, in case they are a first step toward price-fixing cartels?

European industrialists are fiercely arguing this issue with their political masters in the national capitals of the European Community as well as at EC headquarters in Brussels. Europe has been devastated by its failure in the worldwide high tech race; if necessary, it may be prepared to bend a lot of formerly inflexible rules.

At stake is Western Europe's future well-being for the technologies involved are as important economi cally as the automobile once was.

A billion kilometers of optical fiber cabling will need to be laid in EC countries in the next few years; the 2 percent of gross domestic product now accounted for by telecommunications will explode to 10 percent. The Europeans dread that first they

The Europeans dread that Institutes will become the technological client of their competitors, then their series of their competitors, then their series are the total than their series of their competitors, then their series are of its antitrust regulations a avoid such a fate suffered a series when West Germany's highly indipendent Federal Cartel Offices a nounced in June that it was allow a \$50-million linkup by companies for the production of the production of the production of the companies for the companies for the production of the companies for the companie Lorenz and Kabelmetail would be the death of competition.

The would-be partners in the conjugate major plants by a producing at least 160,000 his record fiber-optics cable yearly able to compete against W Electric and Corning of the United States or Japan's Sumitomo.

Expects in Britain agrees

Experts in Britain agree; in BiCC Ltd. and Corning have opened such a plant in Wales. They say that Europe ready forced to import the logical know-how it needs for crucially important fiber-optics works of the future: and that if Europeans also fail to achieve volume. Europeans also fail to achieve volume production, they will soon find them-selves vulnerable to cheaper imports.

"We've already lost semiconduc-tors," warns David Harper, market-ing director of BICC Optical Fibers, "and we don't want to repeat the mistakes we made 20 years ago."

The French government has no doubt that volume manufacture and more intra-European rather than trans-Atlantic cooperation will a war for liberal principles — least of all among the liberals themselves.

The Carter administration suffered now has the capacity to make only. France's Fibre Optique Industre The Carter administration suffered from Mr. Carter's personal inadequacies as a leader, but it failed mainly for lack of a coherent idea of where it wanted to take America either in docables installed around the world in

1984, as against 350,000 in America:

the cozy collusion of that cartel.

The European Commission's pos-

tion is certain to be highly influential — once its officials can agree on one.

Mirroring the whole debate, Eurocrats are split in their support of the EC's tough competition powers and of a flexible new industrial policy for all the Community. Emboldened by the support that

its Esprit program for cross-border research and development projects is getting in the information technology sector, Brussels is turning to telecon-munications. It has already won the backing of the ten member countries for more cooperation on standards and government purchasing, and in-creasingly its industrial policy planners are urging production and mar-ket-sharing pacts that could help the European electronics companies to regain lost ground.

to shrug away errors and gailes merely by changing the subject. Unless he
is put on the defensive and kept there.

frameworks that control business are uvity. Now they have, in Europe at The writer, executive dean of the any rate, to review and maybe to adjust the cartel rules almost overnight if the high tech industries are not to suffer. That is the reality of the third industrial revolution.

International Herald Tribune.

One Democrat's Case Against Overrating Reagan

Mr. Reagan's skills and appeal.
In 1980, challenger Reagan could and did get the good of all his legendary assets, rhetorically singing, danc-ing and telling jokes with pleasure on the campaign trail. In 1984, incum-bent Reagan can still sing, but he is finding it very difficult to dance, and dangerous to joke. Attention should be paid to that fact - immediately, My 1980 prognosis of impending sillusion for the Democrats was based largely on painful experience as a strategist in 1966 for the incumbent governor, Edmund G. (Pat, not Jerry) Brown, when Mr. Reagan first ran for governor of California and

I think Mr. Reagan already looks much less formidable as a defender than he was as a challenger four years ago. I think his strategists, who are very astute, recognize the potential problem, but that Walter Mondale and his strategists have only begun to see and exploit it. That does not mean that Mr. Reagan cannot or will not win. But the Democrats have a much better opportunity to scrape away

or politicians yet understand. How are the campaigns of 1980 and 1984 different for Mr. Reagan? First, four years ago he had the un-popular and inflexible Jimmy Carter By Hale Champion This is the first of two articles.

won a landslide victory. Mr. Reagan's margin when he won re-election in 1970 was only half that of his initial victory in 1966.

that famous Tellon coating in the next two months than many pundits

to run against. There was John An-

derson, a significant independent candidate, to scoop up voters who were not available to Mr. Reagan thimself but who regarded Mr. Carter as too much or too little to take. Such people find it either a pleasure or a duty to vote, but would as soon send a message as decide an election. There were the even more numer-

ous eligible nonvoters who do not much like taking an hour or so out of their busy private lives to perform a public function, especially when it means choosing between imperfect alternative candidates. And there were immediate issues in 1980, a host of them about which many voters had strong, unappeased emotions: American hostages in Iran, Russians in Alghanistan, an inflating economy still suffering from oil and other shocks, and tense confrontations over social and cultural values and behavior that had religious over-tones. For a challenger with Mr. Reagan's skills and appeal, that was

Marlboro Country.
What does he have in 1984? Well, he does not have Jimmy Carter to kick around any more, and he has had no great success to date in a strident, obvious effort to make Mr. Mondale look like Mr. Carter, Mr. Mondale has his imperfections, but they are not much like Mr. Carter's. Mr. Reegan does not have John

Anderson going for him this year. And while there are still a lot of habitual nonvoters, the numbers and makeup of that category seem to be changing through mobilization of many of the women, minority-group members and even union members within it -largely due to displeasure

sent or on the potential for future turnoil. There is nothing immediate to produce great emotion on either side except the Ferraro candidacy. The marines in Lebanoa are dead or gone, not hostages. The Russians seem, quite understandably, to have decided that negotiating with Mr. Reagan on arms control is useless.

The economy looks likely to help the incumbent, but that is less certain than is assumed. The expanding sen of debt — private even more than public — which buoys it is also leak-ing into the national hold in a way that ought to make the markets much more nervous than they already are. America is taking on water by the barrel and talking about bailing with teacups. That could mean trouble next year or the year after, or tomorrow. The Reagan team, ever alert, inveighs against purveyors of doom even before anybody but Mario Cuomo has sounded the tocsin.

Americans are no closer to consensus on social and cultural change in behavior or values, and indeed seem more firmly polarized than ever. Mr. Reagan with his "feeling good about America" theme clearly has made most Americans feel less guilty about the unfairness of a world we are told we never made, and for which we therefore cannot be held responsible.

What does this view of the differ-

tential effectiveness of the Reagan skills and appeal this fall? His performance as a cheerful, likable personality whose flair for sim-ple, anecdotal evidence in public dis-course makes him a great commun-

icator is an asset that will be en-hanced, not diminished, unless ... The "unless" is crucial. Unless Ronald Rengan has to give specific answers to hard, even complicated questions on issues linked to his performance. Unless he is not permitted

John F. Kennedy School of Govern-ment at Harvard, was undersecretary of health, education and welfare in the Carter administration. He contributed this comment to The Washington Post.

LETTERS TO THE EDITOR

Khomeini's Appeal Ebbs Haroon Siddiqui's opinion column ("Many Moslems Like Ayatollah Kho-

meini's Causes." Sept. 1) is, typically, an article of misplaced assumptions by a man isolated from events. Ayatollah Khomeini did represent new hope for many Moslems and most transans when he took power. That was in 1978. After six years, people have opened their eyes and now see the atrocities and above all the unreliability of the Khomeini ideals.

It is no longer "the foot soldiers of revived Islam and its revolutions' that represent the majority, as they once did — witness the sudden drops ences in the circumstances between in the number of volunteers for the 1980 and 1984, some of which cut one war, the recent Tehran bombing and the reactions following it; the num-

ber of hijacked planes; Ayatoliah Rafsanjam's call for moderation. ABOUALI FARMAN.

Meanwhile, in Monaco

Regarding "Monaco's Silly Season" Photos of Stephanie Revise Palace's Joust With Press" (Aug. 29):

I was astonished to see how low the International Herald Tribune has dropped by publishing a front-page story about the love affairs of the members of the Grimaldi family of Monaco, about whom we all have heard enough. What is their 50000 life doing on the front page when the whole world is in crisis?

10 Years of Revolution In Anti-U.S. Ethiopia

Mengistu Adds Finishing Touches To Creating His People's Republic

By David B. Ottaway ADDIS ABABA, Ethiopia -Ten years ago Wednesday, the late Emperor Haile Sclassie was quietly driven away in a Volkswagen from his Grand Palace in central Addis Ababa by a group of unknown re-bel army officers who had carefully engineered a bloodless "creeping coup" against the senile monarch. Neither the 82-year-old Ethiopi-an emperor nor the United States,

In seirospect, events here were ight a preview of what was to hap-tien on a larger scale to the U.S. presence and policy to Iran, al-though the wellsprings of the two revolutions were totally different: fran's was driven by Islamic funda-mentalism while Ethiopia's grew out of a general despair with prevailing conditions, without much

In neither case has the United States been able to get along with the new rulers or cope with the anti-American thrust of their revofutions. Washington has not sent an ambassador to Addis Ababa for years and four U.S. Embassy offi-cials were expelled early this year for allegedly having contacts with

the regime's opponents.

The fall of Hatle Sciassie, the closest U.S. ally to Africa in the postwar period, set off far-reaching events not only for Ethiopia hut for the American posture in the Horn of Africa as well. In April 1977, the once-huge U.S. communications center in Asmara, io Eritrea Province, wasclosed with most other American facilities in Ethiopia. Russians and Cubans began arriving by the thousands to replace the departing

Within months, the U.S. presence was all but erased to Ethiopia while a new Communist one was spreading throughout the old em-

Today, Ethiopia, bound by a friendship treaty to Moscow, is an even closer ally of the Soviet Union than it was of the United States: Its military leadership under Lieuten-ant Colonel Mengistu Haile Mariam has just set up a Communist Party to rule over a new East hloc-style "people's republic" now in the

"American imperialism" is oow the official No. 1 enemy, and Washington and Addis Ababa are scarcely on talking terms.

The internal changes that have taken place over the past decade in the life of this 2,000-year-old nation are just as remarkable and are displayed amply across the land-scape of the capital in these days of

On Wednesday, the old Meskat Square in the center of Addis Aha-ba, where in mid-September the Coptic religious authorities once celebrated "the finding of the true cross" and crowds lighted bonfires to mark the end of the rainy season, was the scene of a Communist-style civilian and military parade orches-trated by North Koreans.

Now known as Revolution Square, the site is overlooked by three giant billboards, one bearing the oew, all-red party flag with a hammer and sickle, another with a picture of Colonel Mengistu surrounded by workers and the third with the faces of Marx, Engels and

Troops and spectators gathered in Addis Ababa under a portrait of Lieutenant Colonel Mengistu Halle Mariam to celebrate the 10th anniversary of the Ethiopian revolution.

North Koreans. In the background, 10,000 Ethiopian children carried cards that spelled out revolutionary

It was an impressive display of Communist-inspired choreography over which the East German leader. Erich-Honecker, and a Soviet Politburo member, Grigory Romanov, the top Communist guests. watched with obvious pleasure. Except for Communist Party representatives, few Western guests were invited for the occasion and only two American journalists were allowed in to report on it.

astics introduced here hy the gifts of material from Soviet-bloc

slogans such as "Down With Impo-rialism" and "Long Live Proletar-ian Internationalism," and depict-ed scenes from the revolution ing between the government and its

opponents.

Where once the night was filled with the ooise of gunfire, today an almost cerie silence reigns and the streets are empty long before the midnight-to-5 A.M. curfew goes into effect. Taxis, once plentiful at night, are almost impossible to find after 10 P.M.

Despite the calm prevailing in the capital, Ethiopia is still suffer-ing from most of the same old The Mengistu government has problems that bedeviled it at the start of the revolution; severe and peasants and 15,600 soldiers filed by the reviewing stand waving flags and carrying out mass gymalikough some of it has come to food shortages.

Violence Again Breaks Out in Soweto As New Bans on Dissent Are Imposed

bouses and a nightclub were at-tacked with gasoline bombs early Thursday to South Africa's largest do so."

six are refusing to leave, but there is led calls for a hoycoit of last no question of us forcing them to do so." black township. The violence broke out after the government imposed sweeping new bans oo dissent.

A police spokesman said one house in Soweto, Johannesburg's black township, was destroyed, but no one was inside. The other house and the nightclub were only slightly damaged

He said riot police used tear gas Wednesday night during five separate incidents of stone-throwing. Police vehicles were damaged but no one was tojured or arrested. he

Witnesses said police used whips against crowds and fired tear gas ioto a group attempting to hold a prayer meeting to commemorate the death of Steve Bikn, a black leader who died in police custody seven years ago.
The new ban, announced Mon-

by the minister of law and order, Louis Le Grange, prohibited until the end of the mooth any meeting of more than two persons discussing politics "or which is in protest against or in support or io memoriam of anything."

The ban is described by oppo-

nents as the most severe measure in recent years. It covers certain areas in all four provinces but is most comprehensive in the Transvaal, where about 40 persons bave died in widespread threst in the last two

Meanwhile, in the city of Dur-ban, six South African dissidents sought by police entered the British

consulate on Thursday and refused to leave, British officials said.

A spokesman for the six said they had sought political asylum.

Police have been trying to rearrest five of the six since their release from detention last Friday on the orders of a judge. They are leaders of the anti-apartheid United Democratic Front and of the Natal Indian Congress.

The sixth has been sought by the police since an initial crackdown during elections last month in which 200 persons were arrested.

A British official to Pretoria,

Salvadorans Treated in Paris

PARIS - France is treating a number of wounded anti-govern-ment guerrillas from El Salvador io a Paris hospital on humanitarian grounds, a spokesman for the Ministry of External Relations said Thursday. A spokesman for the In-ternational Red Cross to Geneva said Wednesday that 10 Salvador-an guerrillas had been flown to West Germany early this month.

Reuters while deoying a formal asylum re-SOWETO, South Africa — Two quest had been made, said: The and the Natal Indian Congress and

tal Indian Congress, Faronk Meer, said: "The British government has refused political asylum in the consulate to leaders of the United Democratic Front and the Natal Indian Congress and wants to kick them out toto the hands of the police who are waiting outside.

"It is clear to us that the British government's condemnation of detentions represents hypocrisy and empty rhetoric," he said.

Parliament, which allows a minor An executive member of the Na- parliameotary role for Asians and persons of mixed race but excludes South Africa's black majority.

Dow Industrial Index Jumps 28 Compiled by Our Staff From Dispatche NEW YORK — Prices were sharply and broadly higher at the close of the New York Stock Exchange Thursday in heavy trading.

Reastrs

1199 345 1994

20.87 the previous three sessions.

Advances led declines by an 11-to-4 ratio among the 1,990 issues traded.

Turnover amounted to about 111 million shares, up from 78 million traded Wednesday. Analysis said investors were also in a buying mood Thursday because they expected the lat-est money supply figures to be encouraging. George Pirrone of Dreyfus Corp. said "three

medium-sized buy programs came into the mar-ket and belped trigger the rally. Also, bonds and bond futures rallied and stocks followed. What this all says is that people want to buy into the market."

AMP Inc. was fourth on the list, up 1½ to "The sell programs that appeared last week and early this week didn't put that big a dent in Merrill Lynch downgraded electronic connections. market."
"The sell programs that appeared last week

and early this week didn't put that big a dent in the market," said Ralph Bloch of Mosely Hall-garten, Chicago. "But the buy programs did. That says the market is positioning itself to move toward new highs. Bloch said government reports Friday on retail sales, industrial production and producer

economy and that should bring interest rates down. Further, "The most hullish thing in the world would be for General Motors to go on strike and let the boys go hunting for a couple of

prices "all should point to a slowing in the

weeks to slow the economy more," Bloch said.
Some traders were disturbed that federal

Div. Yid. PE 100sHigh Law Quot, Chros

billion first reported.

The Dow Jones industrial average, up 4 points at the outset, was up 27.94 to 1,228.25 at the close. It gained 2.32 Wednesday after falling an adjusted \$544.9 billion in the week ended Sept. 3, the Federal Reserve said Thursday Anayists had expected a small rise in M-1 for the week. The Fed revised the previous week's M-1 level to \$547.0 billion from the \$547.1

funds rates rose to 11% percent from 11%

percent earlier this week. Commonwealth Edison was the most active NYSE-listed issue, up ¼ to 25 ¼. Phillips Petro-leum was second, up 3 to 42¼. Exxon was third, up % to 44%. Atlantic Richfield gained 1% to

tor company stocks.

General Motors, faced with a midnight Friday UAW strike deadline, rose 1% to 75%.

Union officials were gloomy. Ford gained 1½ to 45 and Chrysler 1% to 31%. Texas Instruments, which plunged 134 the

previous two sessions, rebounded 31/2 to 131% even though an analyst said testing problems surrounding TTs microchip business could cost the company \$100 million in sales. IBM rose 34 to 1264, AT&T % to 194,

Digital Equipment 31/2 to 9914, Teledyne 4 1/2 10 2884, Motorola 24 to 424 and Burroughs 24 to 56.

MERICAN DREAM"

In August 1982, the market erupted, fulfilling a prophecy our analysts made a few months earlier when the DOW was under 800, when most oracles were chanting fiscal dirges, predicting an Apocalypse. In June 1982, C.G.R. prophecized that the "DJI WILL HIT 1,000 BEFORE TOUCHING 750". Our success-more importantly, the rewards to our readers-can be attributed to the "law of contrary reason", to the observation that the majority is an inchoate Crowd, addicted to prevailing opinion. As the DOW hurdles toward 1500, there will be temporary downside spasms as the Power Elite re-stock their inventories at wholesale prices, absorbing the errant judgment of the masses. Whenever the DOW droops, pariahs spew out dire warnings, whispering that mankind will wilt. Misery is a profitable enterprise, even though pundits of gloom have dismal track records. Two decades ago Bertrand Russell the philosopher predicted a nuclear war "writer months". confirming the thoughts of C.O. Snow, a distinguished author, who mused that his pessimistic projections "were not a matter of opinion or speculation, but scientific certainty". The "snow jobs" of widely quoted Wall Street gurus have been equally erratic. Just two weeks before the August 1984 upsurge, the chief "chartist" at a prestigious investment firm warned clients against "another Depression". Apocalyptic cries demand a declaration of amergency, cries harnassed to the traditional messianism of civil religion to: produce a sense of tragedy, even among tha non-religious. It is sad to reflect upon the potential profits that eluded Granville's groupies between 1981-1983, or the money that was "lost" by investors heeding Kaufmann's interest rate projections. In constant dollars, the DOW is but 1/3 of its 1965 highs, while fundamentals such as earnings, dividands, book value "et al", have improved significantly. The American dream is contagious; the desire for both self-gratification and fulfilling the needs of others is a maturing process, an elan that sustains the revolution of rising expectations. Like the paintings in the Ajanta Caves, tha beauty of creativity can best be sensed by those who make a pilgrimage to it, by mortals who caress the complicated arabesque of achievement. Our next report studies tha flow of the market, discussing equities on the N.Y.S.E. that may be taken over at 50% above their current price; in addition, we highlight a low-priced "special situation", with the dynamics to vault 500% or more, emulating the success of a recently recommended oil stock which climbed from \$2 to \$20.

Unfreezing the Primal Pain

The real Primal Scream is unmistakable. It has its own quality of something deep, ratifing and involuntary. When the therapist addenly removes any parties of definitions. suddenly removes any portion of defense and the patient is left open with his Pain, he screams because he is wide open to his truth. Arthur Janov, "The Primal Scream," 1970

ARIS - Ever since a 22-year-old student fell to the floor in Palm Springs, California, in January 1967, Arthur Janov has heard a lot of screaming. "You hear Primals in patients" native languages, it sounds like the Tower of hel," he says. The Paris branch of Janov's Primal institute offers therapy in seven lan-guages to patients of 21 nationalities and his books have been translated into just about

MARY BLUME

every language from Hebrew to Serbo-Croatian. The one exception is Italian: Janov has heither been translated into Italin nor had an Italian patient. He cannot aplain this.

He can, however, offer a simple explanation for his wide appeal: Primal Therapy, he maintains, is the only therapy that works. From a more practical point of view it is relatively rapid (usually six to eight months olus return visits) and, says Janov, it costs one-fifth as much as psychoanalysis. Above all, Primal Therapy traces neurosis to parent-child relations and everyone, of every

nationality, has parents. Janov cites as an example a Yngoslav patient who had been bombed as a child in World War II. The source of his Pain (Janov always uses a capital "P") was not the flombs: "It was where was my Mama when the bombs were falling," Janov says. He is as attractively tousled as when he first sprang to same but the ringlets are gray now and the time sometimes tired. He turned 60 last

"What's fascinating is that everybody, no matter what their background, they all go back to that very simple need of being loved or being touched," says Janov's second wife and chief aide, a dynamic blonde named France who was his first French patient in the days when the Primal Institute was only

They are a decorative, relaxed couple lean-

ing back on the sofa in the European Primal Institute, a town house off the posh Avenue Foch. "It was given to us by someone whose life we saved," Art murmurs. The therapy rooms are upstairs: light-blue padded cells with occasional shreds of Kleenex strewn pathetically on the floor.

The basic difference with Freudian theory is that we lay down neurosis as an experience, not an idea," Janov says, "Therefore, you don't just discuss, you have to relive the experience. So our patients really get it out. They get into this tremendous fury - we have punching bags up there and the walls are all thick."

"And under the fury there is always the Pain," adds France. British television has just been filming a violent paranoid patient.
"He's scary," Art says. "But when you get through it you can just see this little boy

To Janov, neurosis is frozen Pain. Primal Pains are needs and feelings that have been repressed, usually in early childhood, and the Primal Scream is both a scream of Pain and a liberating moment when the patient's defense system dramatically opens up. The first Primal is likely to occur within three weeks of therapy. Janov finds all the emphasis on screaming distasteful.

"Journalists get lazy and latch on to the scream and that very dramatic quality. I make people scream?" he wrinkles his face. "It all sounds so ridiculous, you know. The truth is we never made people scream." "You can have sessions where you won't

hear a scream," says France. "You'll hear a deep cry in very moving moments. Sometimes a patient will scream but it has nothing to do with screaming."

Janov says he has been widely ripped off by imitators, and even a leading psychiatric hospital in Paris offers what they call Primal Therapy, reimbursed, as his patients are not, by Social Security. "There are some 400 to 500 clinics in the world using my name, claiming to be trained by me or other bes," Janov says. "They do a lot of harm." It's enough to make a person scream, but Janov has sensibly hired his own public relations representative instead.

No nne, except Janov, expected Primal Therapy to have staying power when it gained fame in the loopy early 1970s, thanks to its most famous patients, John Lennon and Yoko Ono. Lennon received a review

copy of "The Primal Scream" — Janov says he doesn't know how — and decided he had to have the therapy, later writing the first Primal song ("Mother you had me but I never had you/ I wanted you but you didn't want me"). Janov says he tried to cool Len-non's public enthusiasm. "I mean he was going to take out an ad in the San Francisco Chronicle saying. This Is It. John Lennon.'
We said, for God's sake, don't do that."

Testimonials came from other celebrities. The actor James Earl Jones said Primal Therapy had cured him of smoking, sinus trouble, compulsive sex habits and hemorrhoids. Janov himself has noted results m hypertension, alcoholism, drug addiction, criminal behavior, ulcers, frigidity and flatchestedness. Patients have grown taller, thrown away their eyeglasses, improved their posture, and have lost facial ties and a comalsive interest in whether the Minnesota Twins win or not.

ANOV was dismissed by some as a hip Hollywood psychologist and a media-conscious maverick. The Los Angeles Times in 1971 quoted him as saying that Primal Therapy is the most important discovery of the 20th century and that 80 percent of all ailments could be cured by it, which means we could get rid of all but 20 percent of the medical profession. He was linked with the far-out therapies that flourished at the time although he never use ished at the time although he never was associated with them.

"It was never a fad or a gimmick or any of the things people wrote about it," Janov says. He is writing a book explaining why such approaches as Gestalt, Transcendental Meditation and holistic medicine cannot work. Nor, in his opinion, can conventional psychotherapy. "There's a long chapter on Freud and where the neo-Freudians went wrong. I think Frend's a towering genius in psychology, he just didn't go far enough."

Janov's Ph.D. (he is not a medical doctor) is in clinical psychology. He had long experi-ence in conventional therapy, starting at the Los Angeles Veterans Hospital, where he also played in a band called The Psycho-pathic Syncopators. "We were one of the best bands in the country because we had all the Hollywood musicians there who had cracked up. I played trumpet. The sax section all had lobotomies, I mean it was really wild, they weren't in their heads at all. They

Arthur and France Janov.

were playing terrific stuff but they didn't know who I was from one day to the next."

From the start, Janov says he was dissatisfied with conventional psychology. "It wasn't rebellion, it's an evolution. I always sensed something. I mean I always knew that people didn't get sick because of lack of insights and they don't get well because you give them insights. Those laws in Freudian therapy about the id and the ego and regression and all that mumbo jumbo, no psychologist has to talk that way. You don't need a special language, we're all in the same boat."

The Paris Institute bolds regular weekend retreats for patients who attend group sessions and relax at "Primal" movies such as "Bambi," "Les 400 Coups," "Fanny and Alexander" and "E.T." There are also satelbte Primal Institutes (the next one to open in London in 1985). In 17 years, Janov says, Primal Therapy has become a systematic

ONDON - It is a hot, change after-

noon in Chelsea, but inside Anita Brookner's sitting room there is a

sense of cool exactitude, of pol-

science almost mathematical in its precision. He is at present engaged in a research roject with a London hospital and an English university that involves measuring the effects of Primal Therapy in such areas as bormonal secretions and the immune sys-tem. The tests are intended to give objective evidence of what Janov says he already

There is no other psychotherapy that takes Pain as its base, that says psychological and physical Pain form the basis of a neurosis, and that sets out to measure the core of Pain inside the body and the brain to prove our bypothesis.

knows: that Primal Therapy works.

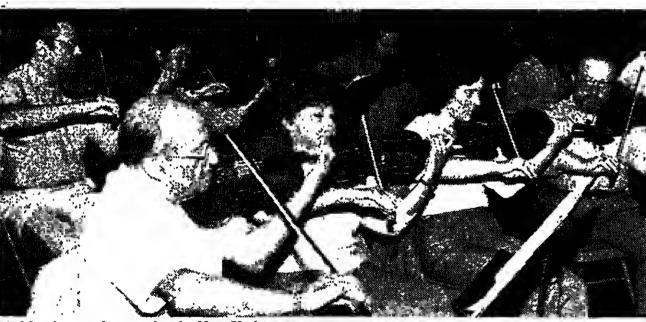

"I just want professionals to be aware that this is a systematic scientific therapy, that there is a way out of the anguish that people are suffering from, and that it isn't a whim." The problem is to win acceptance from

Order in Search of Fulfillment

organizations that would provide funds for the training of more therapists. The current tests are clearly intended to add scientific luster to Janov's ideas.

"I think Primal Therapy is the real revolution that's going on in the world today," he says. "I think all other external revolutions are meaningless unless people can change themselves profoundly. And when you change people profoundly, you'll create a new society, I think."

"I used to worry about professional acceptance, that's when I was trying to convince professionals who had this incredible faith in their own thing that they could change. They're not going to. There's a syndrome called the I-won't-believe-it-even-if-youprove-it syndrome. My guess," says Janov with his weary smile, "is that it's going to

A Muzak recording session in New York.

Hiding the Music in Muzak

by Will Crutchfield

EW YORK - In the word-processing department of a large midtown Manhattan publishing house, staring at green letters on a black screen, a bored typist is tapping her foot. Two bundred and thirty-nine miles south, a filing clerk in a Washington office taps along in precise unison, 60 times a

It's two in the afternoon, By 2:10 P.M., in time with a tune they may not know they're hearing they will be tapping 72 times a minute; by 2:15 P.M., 78, and if their responses are typical their speed and accuracy will pick up just when they would have wilted in a silent or talk-filled room.

Not everyone taps a foot, but just about everyone responds: that is the premise on which the Muzak Corp., which celebrated its 50th anniversary last month, has built its multimillion-dollar chain of background music franchises.

"Music by Muzak." as the company's director of communications. Charles Furlong, is careful to call it (lest the trade name go the way of Kleenex and Frigidaire), is heard daily by more than 80 million people around the world, and the company can cite an impressive array of in-house and independent studies to back up its claim that music can improve productivity anywhere — from Precision Small Parts Inc. to RCA and Xe-

Muzak calls the process that manipulated the typist's tapping foot "stimulus progression"; it is not so blunt an instrument as to rely solely on increasing speed. According to the vice president for programming. Rodney Baum, tempo, meter, instrumentation and the "feel" of a selection are painstakingly calibrated within the quarter-hour segments. These are in turn fine-tuned to the fatigue cycles of the workday; the stiffest doses of musical caffeine are administered at 10:30 in the morning and 3:30 in the afternoon.

How it works within a segment may be gleaned from a demonstration LP made this year by Muzak for distribution to franchiseholders and prospective clients. The first three songs are all at a metronome setting of mm=120 (120 beats a minute) - march time, though there is no march sound to them. The first starts delicately: a prominent accordion solo; no rbythm section for the first few hars. The feeling is of a leisurely but

smart two beats a measure.

azzier, with more percussion and a clear four-to-the-bar (a high-strung or fidgety typist might start to tap twice as fast); the third has an insistent electric bass underpinning in repeated eighth-notes. Then comes a more thrusting tune (Michael Jackson's "Beat It"), at the slightly faster tempo of 144.

The fifth and final number of the sample sequence starts unassertively with a gentle electric guitar statement of the melc.ly, at the slowest pace yet (mm = 96), but after less than a minute it suddenly launches into a brassy mm = 156, with the rhythm section in full swing. The kick is about 10 times more

effective for having been "set up."

Of course, "brassy" and "insistent" in the

Musicians especially detest Muzak, perhaps because they cannot help doing exactly what Muzak doesn't want: listening. 'I grit my teeth whenever I go into an elevator or a restaurant,' says one composer.

foregoing are to be understood in the Muzak context: nothing should be noticed. The drums do not pound. Saxophone solos do not wail; they murmur. The massed strings, when they are used, hum more than they swell and soar. Above all, there are no voices, no distracting words. "Our music is not meant to be listened to," Furlong said. "It's as simple as that. If it stands out, it's wrong."

Muzak works hard for its calculated anonymity. Approximately \$1 million is spent vearly on updating the library of selections, Furlong said. "We keep an active playlist of 5,000 songs; the total library is over 50,000." Each year 1,000 titles are deleted, either to make room for new hits, or to be redone with "fresh arrangements and recordings so that they sound correct in today's Muzak li-

brary," according to Baum.

The sound of today's Muzak library is above all electronic. "The electric instru-The second, though at the same speed, is ments are the orchestra of rock, and they use

them superbly," said Dick Lieb, a commer cial arranger to whom Muzak turns for its New York recordings. He described in a telephone interview the band used at his most recent sessions: "First, the rhythm group: electric bass, drummer, other percus sion, two guitars, two keyboardists. Winds two each of trombones and trumpets, always with the mutes. Strings: nine violins, four cellos." Earlier Muzak recordings relied far more on acoustic piano and guitar, swooping strings and a big-band style saxophone sec-

HE fresh arrangements are not the only thing new at Muzak: The company has seen much change in the last decade, especially since being acquired by Westinghouse in 1981. The emphasis on mu-sic for retail stores has decreased substantially. Where the company once offered three "channels" of Muzak music ("office," 'factory' and "public area") and disseminated them by mailing tapes to the franchise-holders, it now provides a single broadcast feed for the whole nation by satellite from Stam-ford, Connecticut. (Meanwhile, the company now has an elaborate pre-recorded background music service for clients who want to establish a particular musical mood; for this, commercial recordings rather than Muzak

arrangements are used.)
And the tunes are newer. In the late 1960s when George Jellinek was program director, Muzak relied heavily on oldies, and some of the arrangements themselves still dated from the early 1950s. Today, the company is ready to record at the drop of a hit. "On the average," Furlong said, "the time elapsed between a song's topping the charts to its broadcas! 'y us is about six weeks," Much of the recording is done in London, but Muzak records around the globe: Tokyo, Mexico City, Toronto, Nashville, Los Angeles and New York.

That Muzak bears a certain stigma is inescapable, and the company is self-conscious about it. The name is used, much to it owners' chagrin, as a synonym for the insipid, the boring and the witless in all branches of music. As long as 22 years ago, the sculptor Richard Lippold successfully objected to having it piped into a lobby for which he had

been commissioned to create a work. "That canned stuff? I personally find it a bit offensive wherever I have to listen to it." said Nicolie Christin, office manager for a Manhattan law firm. "We would never use it

UT it does not have the answers to the problems that Brookner's characters have. "People say I write about loneliness. Loneliness is a bit too easy. I think we can all

their dissatisfaction. I'm all for it."

feel lonely waiting for that one person, not waiting for anyone," Brookner says, somehow tacitly daring anyone to disagree. In an era where the realization of the individual has assumed mythic importance, love is the supreme value in Brookner's uni-

verse. But what raises her fiction above facile romanticism is that though the happy ending may exist, her heroines — thus far — have never gotten to it. "They know it's not going to happen to them," she explains with a knowing smile.

"They know they're on the wrong track. They have to get back to the right one." She pauses. "Or find the right one."

Brookner, whose aura of wistfulness is

Anita Brookner.

in conversation, is not embarrassed to admit that she writes about what she knows. She was an only child; her parents are now dead, and she is unmarried. Her books make it quite clear that academia, however interesting it may be, is not sustaining. She is modest in her estimation of the uses of art and the rewards of talent. And for her, religion is not

"This leaves one living quite existentially," she observes, lighting a cigarette and blowing the smoke carefully to one side. Not relying on anything. Not relying on the recipes. And just doing the best you can. And hoping, of course, hoping."

In "Hotel du Lac," the heroine takes her name from just this aspiration.

Edith Hope finds berself in a rather beige, respectable hotel in Switzerland where she, an author of romantic fiction, attempts to son through the pieces of ber life. Her time at the Hotel du Lac is full of tragicomic encounters, but provides her with little solace and no answers.

As in ber other books, Brookner divides characters in "Hotel du Lac" between Edith. whose sensitivity renders her weak and mild. and the other inhabitants of the hotel, whose strength makes them insensitive, if not im-

"Launched young into adult enjoyment, fearless, privileged, spoilt, they retained a similar impatience with anything serious or disheartening, were quick, charming, enthusiastic and forgetful. Depths were not easily reached with them and their kind."

But "Hotel du Lac" reverberates with irony, and Edith, who is aware of the depths, is rather stuck in them. "The inner, hidden part of the personality isn't allowed much play in contemporary life," Brookner observes.

The price exacted by innocence and sensitivity is a theme that Brookner developed in "A Start in Life," the story of a woman academic who chooses duty over love and freedom, and regrets the choice. Then came "Providence," in 1982, about a young professor of romantie literature who is the victim of the illusions that literature has supplied to her. And then, most searingly, "Look at Me," published in 1983, the story of a medical librarian who enters a world where love seems possible, only to find herself excluded from it.

"There are no certainties," Brookner says Continued on page 9 barely camouflaged by her quick clemanness confidently. "The only certainties are in the writer's life — another missed connection."

books which I've read, which my characters have read, which are basically innocent books.

"Literature — particularly 19th-century literature, which was my creed when I grew up - tells us that virtue will be rewarded as will patience; that everything comes to him who waits. It doesn't happen like that."

But with an irony that Brookner herself losses of ber life have been turned into the fiction that has led to her success; as the daughter of East European immigrants, she has had to write books about separateness to find her connection in the stiffly structured matrix of British society; and writing about the unfulfilled has brought her many new and valuable friends in the literary world. The virtue of practicing her talent has been

This success, of course, she dismisses as good luck. "Everybody has one confession in them; one narrative. I think it's a matter of training and/or luck whether they can tease that into narrative form. Writing it down is almost a sort of trick; like having 'pitch' in "I would say to anyone suffering from a

feeling of powerlessness that writing a book is a good way to regain control. Because in your book you bave complete say over what happens," she says with a catlike grin.

She wrote her first book for that reason, and to purge herself of difficult feelings. "It worked first time round. Of course that doesn't last. That's why you have to keep doing it." She smiles again. For a woman who writes sad books, Brookner smiles a lnt, and with her short, sculpted baircut even bears a passing resemblance to a kind of female Pierrot of the sort found in Watteau Dictures.

Being an art historian has belped her writing, she believes. "But then being passive and contemplative — which is basically what an art historian is - would help you to observe anyway.'

Her favorite authors are both British, and her choices seem to indicate a line of successinn that leads to ber own work: the late Elizabeth Taylor, whose works are currently enjoying a revival, and Rosamund Lehmann.

"They write from the beart," Brookner says. "I do like evidence of softness, you see. It is the saving grace, after all. It's perhaps what gets one into all the trouble in the first place. It may, I hope, be what gets one out of

ROOKNER is at work on her fifth novel, which she says will be a depar-ture from what she's done before. "It's going to be a family story. But I'm trying to avoid all the sentimental pitfalls of family sagas, which always struck me as a bit of a whitewash," she says.

Coffee has been served, by Brookner herself, in a small, exquisite bone china cup. Proust, in French, in paperback, is neatly stacked on her uncrowded coffce table.

The declining afternoon has placed the small, exacting prints on the blue wallpaper in a dark gray light. But if she could have any pieture in the world, it would not be an Ingres, a Watteau or a David.

No, it would be an obscure picture she saw about three years ago in the window of an antique shop in Paris, a large, 19th-century canvas called "The Eruption of Vesuvius." It would have been quite a sight, that volcano perpetually erupting in Anita Brookner's cool, hlue Chelsea sitting room.

She could have afforded it, and she should have bought it then and there. But she didn't buy it, and it remains, - like quite a bit, but certainly not everything in this accomplished

On an Italian Restaurant Trail

LIECHTENSTEIN-O AUSTRIA

by R. W. Apple Jr.

F all the great crisines in the world, Italy's has always been the simplest, built as it is on the prodigal production of its rich farms and its teeming seas. Dishes like spaghetti with tomato sauce and roast veal owe everything to ingredients - freshly handmade pasta, sunripened tomatoes, virgin olive oil and newly picked basil in one case, milk-fed baby veal and fragrant rosemary in the other - and almost nothing to complicated culinary procedures. It is perhaps the hardest food to reproduce outside its native territory, because of the emphasis on the ideal ingredients, and at its best there is no better everyday food, in my judgment, to be found

Although I have never been lucky enough to live there, I have been lucky enough to visit Italy several dozen times over the last couple of decades. After a stumbling start, I managed to eat wonderfully well by sticking to a few rules: Avoid places with starched tablecloths; eat the local specialties, the simpler the better, drink the carafe wine unless you're sitting in the middle of a vineyard, and perhaps even then, and don't take Michelin nearly as seriously as you do in France, But in the last year or so, I have realized that my maxims were out of date; while my attention was elsewhere, all kinds of interesting things have been happening to Italian restaurants

Not that you can't still eat speciacular regional cuisine in simple trattorias from Udine to Palermo, if you find the right ones; not that all of the innovation has been sucessful. But a new class of establishment has sprung up, chiefly north of Perugia, with gifted chefs who are no longer content with reproducing the regional classics. The temptation, all too readily embraced by some Italian and foreign food writers, is to call the new style muova cucina, after the nouveile cuisine that has spread from France across the world, but the name really isn't apt. The cooking in the best of the new places owes something to the modern preference for lighter sauces and clearer tastes, but it also owes something to the rediscovery of old recipes and to the increased availability in one region of products from others. It is simpler, as one might expect, than nouvelle cuisine, though considerably more complex than the traditional style.

Some of the restaurants I have in mind are already well known, even to foreigners, but most are not. Here is a list of a half-dozen such places, all of them in villages or small towns (some so small that they are difficult to locate even on the best Italian Touring Club maps) in the north of Italy, where my wife and I ate with pleasure during a long motor trip last fall. All are among the 19 restaurants listed in a small guidebook called "Le Soste" ("Places to Pause") put together by like-minded chefs. Any of the six will give it to you free, or you can write to the poblisher, Nibbio Italia, Via Torino 46, Milan 20123, for a copy. It will lead you to some of the country's very best eating. (Price given is dinner for two.)

Antica Osteria del Ponte

Distinctly Mediterranean in feeling, with white walls, dark floors, pink tablecloths and

abundant flowers, the Osteria sits in a classically Italian landscape, next to an old canal bridge, with a villa in the distance. Dishes like the wild mushroom soup and the ragout of calf's liver and kidneys with a sauce fla vored with black olives flirt dangerously with perfection, and the cellar is stuffed with the triumphs of the new Italian enology, such as the fabulous Cabernet-based Sassi-

Piazza Gaetano Negri 9, Cassinetta di Lu-gagnano, near Milan; tel: (02) 942.00.34. Closed Sunday, Monday, Jan. 1 to 15 and August. Credit cards: American Express. About 160,000 lire (\$90).

Ristorante La Chiusa A meal here is a voyage of rediscovery. Dania and Umberto Lucherini have reactivated farmhouse ovens and a venerable mill in an effort to reproduce authentic old Sienese dishes. In summer, you eat beneath a grape arbor. Minuscule portions of 10 or more courses: zucchini flowers stuffed with cheese; matchstick-sized green beans with a sance of oil and beets; a crouton of fried bread, about the size of a silver dollar, with eggplant and basil; a salad of porcini and herbs; a soup dense with white beans and perhaps several other soups as well; veal with onions and pan drippings; heavenly caramel ice cream. Brunello di Montalcino, the deepest and most complex of Tuscan red wines, is made nearby.

Via della Madonnina 88, Montefollonico, north of Montepulciano; tel: (0577) 66.96.68. Closed Tuesday except in August and September and Jan. 20 to March 20. Credit cards: American Express and Diner's Chib. About 90,000 lire.

La Frasca

Gianfranco Bologna, the proprietor of this cozy place in a spa town in the Apennine footbills, used to be a sommelier, and it shows. Empty bottles decorate the stone dining room, and full ones from around the world - Barolo, Chambertin, Ridge Zinfaudel - abound in the cellar. He must have Italy's best grappas — digestifs made ac-cording to the same principles as the marcs of France, often coarse and biting, but capable of great sophistication, as Bologna's examples from Asti, Barbera and Friuli dem-

onstrate. The food is gloriously inventive without coyness or meaningless barogue flourishes. We particularly admired the lobster ravioli with (sweet) red pepper sauce and the stuffed rabbit, a peasant dish utterly transformed by seasoning too subtle for me to pinpoint.

Via Matteotti 34, Castrocaro Terme, south: west of Ravenna near Forli; tel. (0543) 76.74.71. Closed 10 unspecified days in August. Credit cards: American Express, Diner's Chib. From 135,000 to 170,000 line.

Ristorante da Guido

You pull up to a small, charmless shopping mall, descend dubiously into a base. ment, discover a decor of bourgeois excess and find yourself welcomed by a sober young boy, perhaps 11 years old. Newsmind. Place yourself in the hands of Guido. Alciati and luxuriate in what follows. We arrived in September, and we were showered with white truffles - in a mousse, with raw beef, in a timbale of Parmesan cheese, mawoodcock sauce for rabbit. Splendid local wines (Dolcetto, Barbaresco) appeared as if by magic.

Piazza Umberto I 27, Costigliole d'Assi south of Asti, tel: (0141) 96.60.12. Closed July 15 through Aug. 15 and Dec. 20 through Jan-20. No credit cards. About 180,000 lire.

San Domenico

Gianluigi Morini is a host of surpassingwarmth, his restaurant is a gem of intima and elegance, and the service is flawless. San. Domenico's fame has spread quickly, and today it is by far the best known of the new. Italian establishments. The food is often. brilliant; dishes like the garganelli (twisted pasta, a specialty in Emilia-Romagna) with: fresh vegetables, and the green gnoochibathed in sage-flavored cream, to say notiing of the pink lamb with rosemary, stick in the memory for months. But others (the roast pigeon, for example) seem too complicated, too French, and we were depressed to. be told there was no cheese but Parmesan,
"and that's only good enough for cooking."

Via Sacchi I, Imola, southeast of Bologac, tel: (0542) 29.000. Closed Monday. Credit cards: American Express, Diner's Club, Visa."

About 170,000 lire.

Lugana Vecchia

Sitting on the terrace, sheltered by the vines overhead and by pines planted in old. Roman urns, watching the light change on Lago di Garda and on the mountains around it, you might not even notice the food, so supremely relaxing is the setting. That would, be a mistake. Start with the "self service" a breathtaking assortment of antipasti; then take the mixed grill of fish — salmon troot; sardines, pike and eel; finish with woodland berries and vanilla ice cream. Nothing madly creative about it, but everything is done with such finesse that meaning is miraculously restored to cliches.

Sirmlone, near Milan-Venice Autostrala exit; tel: (030) 91.90.12. Closed Monday din ner and Tuesday. No credit cards. About

EW YORK - A home cook's imagination is the only limit when it comes to creating salads. Almost any edible ingredient goes. If one approaches cooking as a hobby, as we do, it almost goes without saying that one of the major compensations is the invention of one dish or another. It occurred to us recently that there is no category of food preparation that gives the nonprofessional cook more latitude in his or her imagination

and innovation than salad composition. Consider that almost any edible thing may be used in a salad. It may be a leafy green or a cooked meat. It may be in the form of meat, fish, seafood or poultry and, in many cases, either cooked or raw. Leftovers (a roast chicken, for example, or a poached fish) can be very nicely converted into some of the tastiest salads. Raw fish, of course, is the basis of ceviche, which is nothing more than a salad "cooked" in line juice.

The salad may be cold or her (was have a

The salad may be cold or hot (we have a slight preference for potato salad that is lukewarm rather than cold). How about hot, thin-sliced beef on cold, crisp salad greens? Or, similarly, hot, thin-sliced roast duck

And there is almost no herb - taken from either a small plot or a large garden — that does not do nicely as an ingredient. The basic greens (if they are used at all in the salad bowl) may range from such exotics as arugula and radiochio to the more mundane lettuces. One has an almost unlimited choice of oils (hazelnut, olive, walnut?), flavored mustards (green peppercorn, tarragon, shallot?) and vinegars (raspberry, strawberry, curran!?) to enliven, smooth over or give substance to the combination of greens or

As far as the dressings go, there are basi-cally two — one vinaigrette, the other mayonnaise — and the variations on either border on the cosmic. You may use lemon or lime juice in place of vinegar; you may vary your proportions for the vinaigrette (the classic proportion is, of course, one part vinegar to three parts oil); your mayonnaise may be thick or thin. Thin it, if you desire, with a bit of heavy cream, sour cream or

Salad season is still very much with us, of course, and we offer here three salads that recently "came to mind" in our own kitchen.

LOBSTER AND AVOCADO SALAD

The salad ingredients: 2 two-pound live lobsters Salt to taste, if desired 1 cup finely chopped green onions or scallions 2 firm, ripe, unblemished avocados, about ⅓ pound each
Juice of ⅓ lemon tablespoons finely chopped fresh basil

The salad dressing: 1 tablespoon imported mustard 1/4 cup white-wine vinegar 2 tablespoons finely channel shaped tablespoons finely chopped shallots Salt to taste, if desired

1. Bring enough water to the boil to cover the lobsters when added. Add the lobsters and salt and cover. When the water returns to the boil, let the lobsters simmer 12 min-utes. Let stand five to 10 minutes and drain the lobsters well.

2. Meanwhile, cut away and discard the core of the lettuce. Cut the leaves lengthwise into quarters. Cut the leaves crosswise into very five shreds. There should be about six to 3. Remove the meat from the lobster

shells. Cut the meat into bite-size pieces. There should be about four cups.

4. Put the lettuce in a salad bowl. Arrange the lobster pieces on top and add the green

onions or scallions. Toss lightly.
5. Cut the avocados in half lengthwise.
Discard the pits. Peel the halves. Cut each half lengthwise into thin strips. Sprinkle with lemon juice. Arrange the avocado slices neatly over the salad. Sprinkle with the basil.

7. To make the salad dressing, put the mustard, vinegar, shallots, salt and pepper in a mixing bowl. Add the egg. Blend the oils. Start beating with a wire whisk while gradually adding the oil 8. Serve the salad and salad dressing separately if desired. Or toss the salad with the

Yield: Four to six servings. SHRIMP AND SCALLOP SALAD

The ingredients: a pound medium-size strimp, about 24 1 rib celery, quartered 1 bay leaf

re gartic, peeled Salt to taste, if desired Freshly ground pepper to taste % pound sea scallops
1 pound celery (Chinese) cabbage ½ pound red, ripe tomator ½ pound fresh red onions 1/4 pound small mushrooms 1 teaspoon lemon juice 1 tablespoon finely chopped dill

The salad dressing: 2 tablespoons imported mustard 3 tablespoons white-wine vinegar 1/2 teaspoon sugar 1 cup peanut, vegetable or corn oil 2 tablespoons finely chopped dill Salt to taste, if desired

Freshly ground pepper to taste. 1. Put the shrimp, celery, bay leaf, garlic, salt and pepper in a saucepan. Add water to cover. Bring to the boil and remove from the heat. Let stand

2. Put the scallops in a sancepan and add three-quarters of a cup of the liquid in which the shrimp cooked. Bring to the boil and let simmer one minute. Remove from the heat and let stand briefly. Drain.

Cut the celery cubbage into very fine shreds. There should be about six cups. Cut away and discard the core of the tomatoes. Peel the tomatoes and cut them into quarters. Cut the quarters into very thin:

5. Peel the onions and cut crosswise in half. Cut each half crosswise into very thin slices. There should be about two cups. 6. Cut away and discard the stems of the

mushrooms. Cut the caps into very thin; slices. There should be about 1½ caps. Sprin-kle the slices with lemon juice and toss. 7. Peel and de-vein the shrimp. Split them lengthwise in half. There should be about two cups. Cut the scallops into rounds.

8. Put the celery cabbage in a bowl, add the onions and mushrooms and toss. Arrange the shrimp and scallops neatly over all-Garnish all around with the tomato wedges: Sprinkle with one tablespoon chopped dill. 9. To make the salad dressing, put the mustard in a mixing bowl and add the vinegar and sugar. Start beating with a wine whisk and gradually add the oil Beat in the

dill, salt and pepper.

10. Serve the salad and salad dressing separately if desired. Or toss the salad with the dressing. Yield: Four to six servings.

ORIENTAL SALAD (Bean sprout and snow pea salad)

1½ pounds fresh bean sprouts pound snow peas Salt to taste, if desired ½ pound cooked, smoked ham pound cooked, roast smoked turkey or lain boneless breast of turkey 1 cup finely chopped celery
4 cup finely chopped scaffions
5 cup thinly sliced water chestuats
1 tablespoon finely chopped fresh coriander

2 teaspoons mustard

1 egg
1 tablespoon freshly grated ginger
2 tablespoons white-wine vinegar
1 cup pearant, vegetable or corn oil
Salt to taste, if desired Freshly ground pepper to taste.

 If you desire, pick over the bean sprout to remove and discard the tiny corlicues. the top and bottom. Put the bean sprouts in

2. Drop the snow peas into a basin-th boiling water lightly seasoned with safe Bring to the boil and drain. Chill under coll running water. Drain. Add to the best

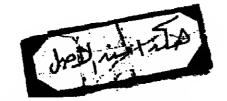

SDFOULS. 3. Cut the ham and turkey breast into fine shreds. There should be about two of each. Add this to the bowl.

4. Add the celery, scallions and water chestnuts. Sprinkle with the coriander. 5. To make the salad dressing, blend mustard, egg, ginger and vinegar in a bowl. Start beating with a wire whisk a gradually adding the oil. Add salt and p

6. Serve the salad and salad dressing serately if desired. Or toss the salad with Yield: Four to six servings.

corner of the globe is being discovered and exalted by one group or mother. Caracas is too parely celeanother, Caracas is too rarely celehard Such neglect is surprising, for Caraword's great cities, is only a five hour flight from New York, or about 11 hours from London or Paris. The urban area is convement to beaches, mountains and jungle, and Nonsts a nearly flawless climate. But peowho look south for a getaway seem to meter Cancun or Acapulco or a Caribbean third, and for a trip to South America, menos Aires or Rio de Janeiro is usually the

choice.

And central problem kept Caracas from animing popularity as a vacation spot, and that was its expense. Until the recent devalugen of the bolivar — Venezuela's standard of the bolivar — Venezuela's standard of christop — Caracas was one of the most expensive cities in the world, in a class with Tolero. London and Paris. But now things have thanged. The bolivar, which traded at about 4.3 to the dollar for most of the last two decades, now trades at about 12.5 bolivars to the dollar in exchange houses. (Major hotels will charge more for the local currency.) Although Caracas remains one of the most expensive Latin American capitals, it is clearly cheaper than it was.

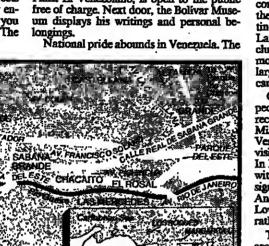

Caracas is a cosmopolitan city lying in a valley formed by a spur of the Venezuelan Andes, about 10 miles (16 kilometers) inland. Its altitude (3,000 feet, or about 900 meiers) gives it a breezy, springlike climate, with temperatures that average from the mid-70s to the mid-80s throughout the year. During the rainy season — May through December — the skies resemble a panoramic moral; it may be sunny where you sit, and poining two or three miles away. Enter a resease to escape from the equatorial sun-light, and you may notice that it has gotten cloudy before your appetizer is served. A furious deluge ensues; you watch the streets turn into dirty puddles as you eat your entree. By the time your meal is finished, you step outside into revitalized sunshine. The weather changes with the courses.

Caracas has always been Venezuela's major city. Founded in 1567 by the Spanish explorer Diego de Losado, it has grown steadily since the middle 1800s, particularly in the last 30 years. Today, the official population count is about 3.5 million - a conservative estimate, and one that discounts the poor who live in huts on the outskirts of lown. It is estimated that at least one in four Venezuelans lives in Caracas.

Caracas's "downtown," El Centro, is in the westernmost part of the city. But tourists will likely spend more time in one of the suburbs: Las Mercedes, Chacaito, La Castellana and Altamira. In these neighborhoods (urbanizacións) you will find the best restaurants and most of the hotels, as well as the flashiest nightlife.

However, El Centro is worth a visit, even though high-rise office buildings are rapidly devouring whatever traces of old Caracas still exist. The city has changed so dramatically in the last few years that a good deal of history has been buried. A longtime resident, conducting a tour of the town, pointed out what he called "a very old section of the city," adding that it was already there when he moved to Venezuela in the early 1950s. This was said without irony; the population of Caracas was well under a million as recently as 25 years ago, and the rapid expanse has made irrevocable changes in the makeup of the city, to the point where Caracas some times seems strangely without history.

On the other hand, Venezuela has one towering historical figure, and he is ubiqui-tous. This is Simón Bolivar, "El Libertador," the father of Venezuelan independence. It is difficult for many North Americans to comprehend the veneration accorded Bolivar in Caracas — and, indeed, in much of Latin America: He is Washington, Jefferson, Lincoln and Martin Luther King Jr. in one. Visitors to Caracas would do well to reacquaint themselves with the story of Bolivar's life. His birthplace, in El Centro near the Plaza El Venezolano, is open to the public

VENEZUELA

letter V is abiquitous - in trademarks and advertisements everywhere. And all a lazy bandleader has to do to win an audience over is throw back his head between songs and shout the word "Venezuela!" in an evangeli-

cal tone of voice. The house comes down. Modern Venezuela was built on oil, and its rich natural resources have made it the most affluent country in Latin America. More than half of the official population of Caracas lives in high-rise apartment buildings, graceful stucco houses mixed with nondescript contemporary brick.

Caracas is currently suffering from the hangover of the oil millions that poured into the city in the late 1970s. With the current oil ghit, and the devaluation, life is not as good as it was for many Venezuelans.

Despite the problems, Caracas remains vibrant, and some exciting new projects are under way. Among them is a sleek new Metro system, based on those operating in Washington and Montreal, that opened last year; it offers clean, reliable subway service for 2 or 3 bolivars a ride.

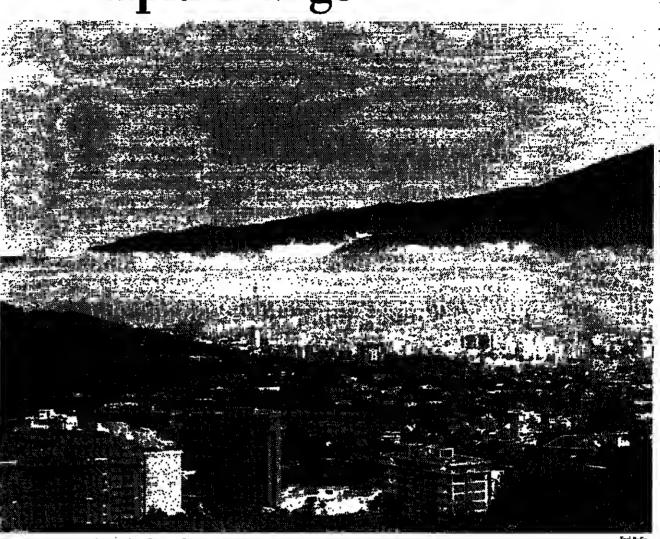

It is hoped that the Metro will help ease Caracas's traffic problems, for the city has long been famous for the worst tie-ups on the continent. Everybody has a car, it seems, and you can become trapped in a gridlock at any time of the day. Crossing the streets is an adventure in itself; you step in front of an oncoming car and take your chances.

HE city offers a rich array of cultural attractions. Downtown, you will find the Teatro Municipal and the Teatro Nacional as well as the glittering Teresa. Carreño Center for the Performing Arts. The Museo de Bellas Artes features not only a collection of native Venezuelan visual arts but also imported treasures. The Museo de Arte Contemporaneo offers an introduction to the diversity inherent in modern Latin American art.

Caracas has two symphony orchestras, several opera troupes and two major dance companies. In the field of popular music, there is nothing to compare with the Argentine tango or the Brazilian chorinho, but Latin bands can be found in many nightclubs. One hears American disco music almost everywhere, and the habit of carrying a large portable radio through the streets has caught on among the young Caraqueños.

Caracas has been influenced by other aspects of American culture, too. Until the recent financial crunch, weekend trips to Miami were popular getaways for affluent Venezuelans, American magazines and television shows, in translation, are inescapable. In Las Mercedes, there is a shopping center, with a Burger King and the familiar orange sign announcing the "Casa del Whopper." And it may be assumed that the graftito "I Love the Police" refers to the rock band, rather than to any anthoritarian longing.

The best place to shop in Caracas is around the Centro Comercial Chacaito and along the adjoining Sabana Grande, a large street filled with stores that has recently been closed to automobile traffic. There are some excellent smaller places to buy leather goods, gold jewelry and other items scattered

Caracas — valley, clouds and mountains.

throughout this area. Prices may vary immensely from place to place; shop around. Artesanias Venozolana, at Calle Real de Sabana Grande in the Palacio de las Indus-

trias buildings offers vases, ashtrays, carvings, sculptures, ponchos, straw hats and other Venezuelan souvenirs. Also recommended is the Manuel Herrera flea market behind the Red Cross building on Avenida Urdaneta — two floors filled with swords, paintings, utensils, mirrors and furniture, mostly at very inexpensive prices.

H. Stern, the leading South American jewelry concern, has several outlets in Caracas; the most convenient are at the hotels Tamanaco and Hilton. In addition to gems, the gold cacique coins, featuring the likenesses of Venezuelan Indians, are available.

Caracas businesses open very early in the morning but close every weekday from noon until 2:30 or 3 P.M. to allow for a long lunch and perhaps a nap. Many places remain open until 7 P.M. or later.

Possible excursions from Caracas include a visit to Colonia Tovar, a mountain village that was settled more than 100 years ago by German immigrants. It has retained German customs, and has excellent restaurants and quaint botels. One problem: Colonia Tovar s 40 miles from the center of Caracas, and there is no public transportation in or out of the little city, so a car is necessary.

Those in search of empty stretches of sand can go to one of the west coast resort towns. such as Tucacas or Coro, several hours' drive from the center of Caracas.

Caracas itself is best experienced at night, when the air is cool and sweet, filled with the chatter of cicadas and the cries of the little peeper frogs. In addition, Caracas offers a panoply of nightlife, and you can find any kind of food you want.

RADITIONAL South American fare should be sampled. One excellent res-Laturant is La Estancia, a steakhouse in La Castellana. Begin your meal with arepas, a traditional Venezuelan specialty made of cornmeal, water and salt, and occasionally stuffed with cheese. Empanadas, tasty meat turnovers, are an import from Argentma. And hallacas — commeal mixed with meat, peppers, onions, chick peas and raisins — can also be recommended. Beef dishes are

very inexpensive, and it is hard to find a bad steak in Caracas.

Venezuelan rum is so smooth that it can be served without a mixer, like a liqueur. Also worth investigating is the splendid light Polar beer, one of the world's great cervezas.

As for hotels, many prefer the large smoothly international approach of the Hil-ton or the Tamanaco. A longtime favorite of mine with a uniquely Venezuelan atmosphere is the Hotel Avila in the hills above San Bernardino. This small hotel has faded a bit, but wears it well. The Avila (Avenida Jorge Washington, San Bernardino; tel: 51.51.55) is on an enclosed estate, filled with palm trees, far from the bustle of the city. It nceds a paint job, substantial renovation and does not offer all the amenities offered by modern chains. Gone are the toucans that used to frolic and snap in a cage in the front yard, but the symbol remains, both in the Toucan bar and in a mosaic on the bottom of the pool. Prices are moderate (about the equivalent of \$25 a night for a single room); the help is gracious, the mood relaxed, the setting ineffably romantic.

O 1984 The New York Times

A Guide to New Guidebooks

by Paul Grimes

Caratas

EW YORK — The title — "India: A Travel Survival Kit" - bothered me at first. It seemed to suggest that without this guidebook, a visitor might face all sorts of dangers. This was not the way I preferred to think of a nation that had been my home for nearly seven years, in which I had traveled widely and that I still regard with respect.

Then I skimmed the 696-page paperback "Survival Kit" and found it to be one of the best guidebooks to India or any country, for that matter — that I have seen. It is a meatand-potatoes book, crammed with practical advice from writers who have studied the country thoroughly. While not emphasizing history and the arts, it covers these subjects amply for most travelers. It suggests what to see and where to stay and eat not just in the major cities and other places that tourists frequent, but also in some remote towns where a foreigner might justifiably feel anxiety about prospects for survival.

Its three writer-researchers — two Britons named Gooff Crowther and Tony Wheeler and a Nepalese named Prakash A. Raj drew not only on the results of their own extensive travels in India but also on additional information, suggestions, advice and assistance from other travelers who knew their work. Wheeler and his wife, Maureen, have collected many fans since they started Lonely Planet Publications in the early

Lonely Planet, with an office in Berkeley, California, is one of a growing number of small publishing companies that are putting out some of the best guidebooks on the market today. An unfortunate fact of travel publishing is that the volumes that are most prominently displayed and widely available in bookstores may not be the best; in fact, many of the best cannot be found in book-

Following is a sampling of what a few of the smaller publishers have available now or plan to issue this fall - in paperback, unless otherwise noted. It is not a comprehensive listing, but is intended to give some idea of their output. In most cases you can order directly from the publisher, who often will absorb the cost of shipping — a service for which mail-order houses usually charge extra. Some publishers accept mail-order payment by credit card. Most will send you a catalog without charge.

Lonely Planet Publications, Post Office Box 2001A, Berkeley, California 94702 (tel:

Besides the one on India, "Survival Kit" guidebooks are also in print for most countries of South and Southeast Asia and the Far East as well as for Australia, Canada, Mexico and Turkey. Prices range from \$6.95 (for Burma, Pakistan, Sri Lanka and others) to \$14.95 (for India).

In addition, Tony Wheeler's "South-East Asia on a Shoestring" (\$8.95), now in its fourth edition, has a strong following among younger travelers, many of whose sugges-tions are incorporated as the book is revised and expanded. Lonely Planet started, incidentally, with "Across Asia on the Cheap," the product of a long, mostly overland trip that the Wheelers made from London to Australia. It is still in print under the title "West Asia on a Shoestring" (\$7.95), concentrating on travel from Turkey to Bangla-

There are also "Shoestring" books on Africa and South America and a relatively new "Phrasebook" series to help travelers cope with common linguistic obstacles. Though Lonely Planet aims many of its books at the thrifty traveler, the focus is not simply on saving money. Rather, they are written on the assumption that you need not be rich to have extremely rich travel experiences.

Petican Publishing Co., 1101 Monroe Street, Post Office Box 189, Grema, Louisiana 70053 (tel: 504-368-1175).

Among the best of this company's books are the "Maverick Guides" to Australia (\$10.95), New Zealand (\$10.95) and Hawaii (\$9.95), by Robert W. Bone, a feature writer for The Honolulu Advertiser who has traveled widely and worked as an editor and reporter in the United States, Europe, South America and the Caribbean. They give the necessary practical information, but are also strong on local history, geography and lore. For example, in a section on "picturesque patterns of speech," the 1984-85 edition of the "Maverick Guide to Australia" tells us that a bicyclist there is called a bikey, that to grizzle means to complain and that a ratbag is "an eccentric character."

Bone says in his introduction that his Australia book was partly subsidized by the government-owned Australian Tourist Commission, but he insists that he had complete editorial freedom.

The Pelican list also includes a number of unusual regional U. S. guidebooks, including the two-volume "Pelican Guide to Old Homes of Mississippi" (\$4.95 for Natchez and southern part of the state and \$3.95 for Columbus and the northern part); "Pelican Guide to Plantation Homes of Louisiana"

(\$4.95), and "Pelican Guide to the Ozarks"

East Woods Press, 429 East Boulevard, Charlotte, North Carolina 28203 (tel: 704-334-0897). East Woods, an imprint of Fast & McMil-

lan Publishers Inc., offers a number of bedand-breakfast guidebooks, a field in which output is growing in direct proportion to the mushrooming number of private homes that offer overnight stays for a not-always-economical price. In the company's catalog are a revised and updated edition of "The Best Bed & Breakfast in the World" (\$10.95) which actually means only England, Scot-land, Ireland and Wales, although it includes over 800 establishments —and B&B or guest house guides to California, New England, the mid-Atlantic states and the South (\$7.95 each, paperback).

For nature enthusiasts, East Woods titles ror nature entinusasts, East Woods titles include a number of regional hiking, fishing, backpacking and whitewater rafting guidebooks, including Elliot Katz's "Complete Guide to Backpacking in Canada" (\$13.95 cloth; \$7.95 paper).

Globe Pequot Press, Old Chester Road, Box Q, Chester, Connecticut 06412 (tel: 203-526-9571).

One of the better guidebooks of this company, an affiliate of The Boston Globe, is Frederick Pratson's "Guide to Eastern Canada" (\$10.95). Its 480 pages and 20 maps include just about all you need to know to tour Ontario, Quebec, the Maritime Provinces, Labrador and Newfoundland.

The press's strongest offerings cover New England. They include guidebooks to thrift shops and factory outlet stores, to Nantucket, Martha's Vineyard, New Bedford and other popular vacation spots and the excellent "Boston Globe's Historic Walks in Old. Boston" (\$9.95), by John Harris, former editor of the newspaper's Sunday edition.

Also notable are the regional hiking, bicycling, canoeing, fishing, walking and skiing guidebooks of the Countryman Press and Backcountry Publications, P.O. Box 175, Woodstock, Vermont 05091 (tel: 802-457-1049); Earl Steinbicker's "Daytrips in Germany" (\$9.95) and "Daytrips From London" (\$8.95), published by Hastings House, 10 East 40th Street, New York, N.Y. 10016 tel: 212-689-5400); "Weekending in New England" (\$8.95 in stores; \$10.25 by mail), written by Betsy Wittemann and Nancy Webster and published by the Wood Pond Press, 365 Ridgewood Road, West Hartford, Connecticut 06107 (tel: 203-521-0389).

● 1984 The New York Times

THE FIFTH ANNUAL INTERNATIONAL HERALD TRIBUNE/ OIL DAILY CONFERENCE LONDON, OCTOBER 18-19, 1984

Conditions in the world oil market have never been more complex. Unstable political situations, uncertain price trends and megamergers have all led to radical shifts in the oil market. In view of the current situation, this year's International Herold Tribune/Oil Daily conference on the theme "Oil and Money: Strategies for the Eighties", has never been more timely.

LEARNING TO LIVE WITH MARKET FORCES: THE FORMULATION OF SAUDI PRICING POLICY FOR REFINED PRODUCTS AND LPG.

Company activity

Over twenty international energy experts will discuss the key issues and assess future trends to help you to determine your business strategies for the mid 1980's.

Senior executives in energy, finance and related fields wishing to register for the conference should return the conference registration form below without delay.

THE OUTLOOK FOR NIGERIA'S OIL POLICY Professor Tam David-West, Minister of Energy and

Petroleum, Nigeria. ARAMCO AND THE FUTURE Ali I. Naimi, President, Arabian American Oil Company. OIL COMPANY MERGERS: GOOD OR BAD? Frank G. Zarb, Partner, Lazard Frères & Co., Former Director,

U.S. Federal Energy Agency. THE FINANCING OF MERGERS AND VENTURES Carol Ferguson, Oil Analyst, Wood, Mackenzie & Co. William S. Lear, S.V.P. and Worldwide Head of Energy

and Minerals Group, The First National Bank of Chicago Rovani, Vice President, Energy, The World Bank LUNCHEON ADDRESS Donald Hodel, United States Secretary of Energy.

THE FUTURES AND SPOT MARKETS: A NEW RANGE Moderator: Nicholas G. Voûte, Oil Consultant, London and

Ernst Roosegaarde Bisschop, Vice President, Europe, Bache Securities Inc.

Jacob Schreiber, Managing Director, Bulk Oil. John Treat, President, Energy Group, Bear, Steams & Co.

REGISTRATION INFORMATION

The participation fee £495. Fees are payable in advance of the conference and will be returned in full for all cancellations postmarked on or before October 4.

Please return the registration form to: International Herald Tribune, Conference Office, 181 ovenue Charles-de-Gaulle, 92521 Neuilly Cedex, France. Or telephone (33 1) 747 1686 or telex: 612832F.

CONFERENCE LOCATION

Royal Garden Hotel, Kensington High Street, London W8 4PT, England. Telephone: (44 1) 937 8000. Telex: 263151. Contact: Sue Robinson.

A block of rooms has been reserved for conference participants at preferential rates. For further details, please contact the hotel.

Hiding the Music in Muzak Continued from page 7

here. For a law office it just wouldn't make my teeth whenever I go into an elevator or a

Against such responses the company cites comments of workers who say Muzak makes their day more pleasant and, more importantly, studies that suggest a measurable relaxation effect, whether or not the workers

Musicians especially detest Muzak, perhaps because they cannot help doing exactly what Muzak doesn't want: listening. "I grit restaurant," says the composer Jacob Druckman, "With any other medium, you can turn your back or close your eyes, but there's no escape from music. It touches you."

That, of course, is the point, and many have been quick to see it. Muzak has been used in the White House (Lyndon Johnson was a franchise owner in Texas); at the 1984 Olympics, for the athletes staging, eating, recreation, and living quarters; in New York's subways, where it was briefly introduced in 1956 at the same time as air conditioning, and on the roadside, blared from billboards to promote a new Nabisco bread. And it's more widespread than ever today.

So, as Druckman says, you can't escape it.
"But whatever you do," Furlong admonished, "don't judge it by the standards of entertainment music. Whatever you do, don't listen."

NOTICE OF ANNUAL GENERAL MEETING

WORLD FUND S.A.

Nooce is hereby given that the Anoual General Meeting of the shareholders of Fidelity World Fund, a societe anonyme organized under the laws of the Grand Duchy of Luxembourg (the "Fund"), will be held at the principal and registered office of the Fund, 37, rue Notre-Dame, Luxembourg, at 11.00 a.m. oo September 25, 1984. specifically, but without limitation, for the following purposes:

Presentation of the Report of the Board of Presentation of the Report of the Statutory

Approval of the balance sheet at May 31, 1984 and iocome statement for the fiscal year

ended May 31, 1984; Discharge of Board of Directors and the

Statutory Auditor; Election of eight (8) Directors, specifically

the re-election of all present Directors.

Messrs. Edward C. Johnson 3d, William L. Byrnes, Charles A. Fraser, Hisashi Kurokawa, John M.S. Patton. Harry G.A. Seggerman and James E. Tonner and Finimtrust;

. Election of the Statutory Auditor, specifically the re-election of the present Statutory Auditor, Maurice J. Sargent:

Declaration of a cash dividend to the shareholders from net investment income for the year ended May 31, 1984 and accumulated undistributed income from prior fiscal years.

Approval of such amendments to the Articles of incorporation as are necessary or appropriate to enable the Fund to adopt the status of a "societe d'investissement a capital variable" and to terminate use by the Fund of variable and to terminate use by the Fund of a repurchase subsidiary to repurchase Fund to make such repurchases itself), including amendment of Article 3 to change the purposes of the Fund. Article 5 to change the amount of and manner of determination of the surface of the fund. determination of the amount of the capital of the Fund, a portion of Article 8 to delete reference to a repurchase subsidiary and repurchased shares, a portion of Article 22 to change provisions as to the limitations on

assets available for repurchase of shares, the dissolution of the Fund and the status of reacquired shares and to delete reference to a repurchase subsidiary, a portion of Article 24 to change the manner of determination of the Net Asset Value of shares, including by incorporation of the Fund's Valuacon Regulations into said Article, and to delete reference to a repurchase subsidiary. Article 25 to change various provisions as 10 subscription for shares, Article 28 to delete provisions as to a legal reserve and to change amounts available for payment of dividends, and Article 32 to change references to certain laws to which the Fund is subject, and to delete in their entirety Article 7, relating to changes in the amount of the capital of the Fund, and Article 23, relating to creation of surplus accounts; and

9. Consideration of such business as may properly come before the meeting.

Approval of Items I through 7 of the Agenda will require the affirmative vote of a majority of the shares present or represented at the Meeting, without any quorum requirement. The amendments referred to in Item 8 will require the affirmative vote of two-thirds of the shares present or represented at the Meeting, without any quorum requirement. Subject to the limitations imposed by law and the Articles of Incorporation of the Fund. each share is entitled to one vote. A shareholder may act at any meeting by proxy

The amendments referred to in Item 8 will all be voted on as one proposal, rather than voting on each amendment separately, and if approved will become effective as soon as possible after the Meeting.

The full text of the above amendments in substantially their recommended form and a letter to shareholders explaining the reasons for the recommended change to the status of a societe d'investissement a capital variable is being mailed to holders of registered shares along with this notice of meeting. Copies of these documents will be made available to holders of bearer shares who so request by contacting the Fund at 37, rue Notre-Dame. Luxembourg.

Dated: August 31, 1984 By order of the Board of Directors

civilish counterparts.

They range in several multiples of what a regular chip costs said Christopher D. Kirby, the semiconductor industry analyst for Sanford C. chips cost hundreds of dollars

requires 10 times as much documentation than commercial customers do."

Because the Pentagon expects the chips to be able to perform in harsh conditions, they are designed according to particular mili-lary specifications-known as Milspec.

For example, Milspec chips are supposed to work in tempera-tures between 125 degrees centigrade (258 Fahrenheit) and minus

55 degrees centigrade. That compares with the two conventional commercial performance ranges of zero to 70 degrees centigrade, and minus 40 to 85 degrees centigrade.

in addition, special circuit designs are often required to assure added reliability. Some chips are designed to be "hardened" against radiation and are packaged in ceramic material rather than the more conventional plastic. The military requires 10 times as much documentation about

the fabrication process than commercial customers do," said Lane Mason, a senior industry analyst with Dataquest Inc., a San Jose California, industry research firm.

Extensive quality-control procedures — sometimes as many as 200 different tests — also add to the military semiconductor's

All these requirements and checks are supposed to ensure the integrity and reliability of the Pentagon's chips, but there has been a recent spate of problems ranging from the current episode with Texas Instruments to quality-testing problems with Fair-child Camera & Instruments Co. chips and National Semicon-

Defense and semiconductor industry sources, who asked that their names not be used, blame each other for the failure to establish a working relationship.

While the commercial semiconductor industry — which is expected to exceed \$35 billion by the end of the year — has not been faced with a similar quality-control problem, there are serious concerns that poorly designed or faulty chips could end up in personal computers, medical devices, automobiles or any one of the hundreds of items where computer and memory chips

"Electronics and semiconductors are becoming so pervasive," said Dataquest's Mr. Mason. "They're embedding them in your body and they're putting them in the national defense. You have to ask what's the cost if something goes wrong."

However, a number of industry sources contend that the U.S. semiconductor industry has made tremendous quality-control improvements in the past three years.

"Three years ago, our American suppliers were shipping us batches that were I percent to 5 percent defective," said Charles A. Cheshire, procurement engineering manager for Hewlett-Packard's computer systems division. "Today, all of them are shipping at less than 500 parts per million defective and they're handly moving to the perfect part."

Dollar **Continues** To Soar

U.S. Unit Tests 3.04-DM Level

NEW YORK - The U.S. dollar remained on its record-breaking binge Thursday though light selling emerged after Argentina said it does not have money to repay a \$750-million loan due this week.

The dollar traded briefly at 3.04 Deutsche marks in New York, then softened when an Argentine offi-cial said a \$750-million loan from commercial banks due Sept. 15 would not be repaid on time. That caused light profit-taking but not enough to erode the dollar's

strength," a dealer said.

In late trading in New York, the dollar continued its surge from Wednesday's levels. Against the Deustche mark, the dollar climbed on 11 lb. weer, birth of 3 0262 December 11 lb. weer, birth of 3 0262 December 11 lb. weer, birth of 3 0262 December 12 lb. week. to an 11%-year high of 3,0363 DM from the previous day's 3,0075 DM. Against the French franc it moved up to 9.315 francs from Wednesday's 9.245. The U.S. currency strengthened to 245.70 yen from 245.35. The British pound fell to \$1.269 from Wednesday's

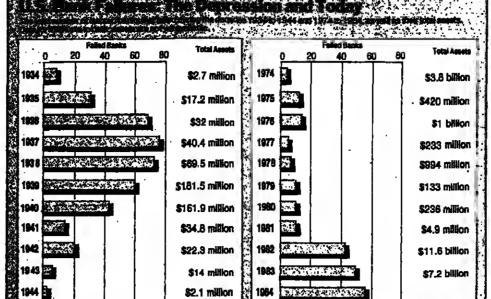

In European trading, the dollar was quoted in Frankfurt at 3.0355 DM. up from Wednesday's 3.0005 DM. In Paris, U.S. currency closed at 9.2925 French francs, up from 9.185 francs. The pound fell in London to \$1.2683 from \$1.2792.

Dealers said the dollar continues to live a life of its own beyond fundamental or technical factors. Most believe the dollar may remain in a new higher trading range above the 3-mark level for the near term.

■ Dollar Level 'Unsustainable'

The record level to which the dollar has risen is "unsustainable" and potentially "detrimental" to the United States and the rest of the world, the International Monetary Fund said Wednesday in its annual report, The New York Times reported from Washington.

The report appeared to presage another spirited debate about the dollar and Washington's policies when the fund's 147 member countries meet Sept. 24,

Should U.S. Banks Receive Bailouts? Continental Rescue Spotlights Issue

By Robert A. Bennett New York Times Service

NEW YORK - Following the government's multibillion-dollar rescue of Continental Illinois National Bank & Trust Co. this summer, the eighth-largest bank in the United States, debate has flared over whether such rescues are the right thing to do, or whether banks — even the biggest — should be allowed to fail. The debate will reach an important stage next Tuesday, when the House Banking Committee is scheduled to hold hearings on Continental's rescue.

Those who assert that such rescues are mandatory point to history. They warn that the collapse of a major bank could set off a chain reaction of bank failures and produce financial panics and global

An otherwise healthy company could be thrust into bankruptcy merely by having deposits in a failed bank. With so much at stake, depositors would likely move funds out of banks at the sign of worrisome rumors, injecting a unstable element into banking.

On the other hand, some people urge that banks—including the biggest — be allowed to fail. They

contend that the freedom to fail would foster safer and sounder banking because depositors would be fussier about where they put their money. This "market discipline," in turn, would prompt banks to be more prudent in lending money, creating a sounder banking

The Background

Like many concepts in banking, "failure" is not easy to define. Technically, a bank "fails" when its chief regulator—either the Comptroller of the Currency or state authorities - determines that the bank is "insolvent." Insolvency occurs when a bank's liabilities exceed its assets. That, however, can be a highly subjective judgment. A bank's loans make up the bulk

of its assets, and it is often hard to predict the extent to which any loan, especially a troubled loan, will be repaid. With that unknown, it is impossible to specify

the real value of a bank's assets.

The case of Continental underscores the subjectivity concerning whether a bank is solvent. The bank's rescue was legally possible because it was officially deemed to be solvent. Yet, the authorities have warned Continental's shareholders that if they vote against the regulators' plan, the bank would be declared insolvent, reducing the shareholders' chances of getting back any of their investment.

Confusing the issue even further, some banking people argue that, as a practical matter, Continental actually did fail. They say that its shareholders already have lost a large part of their investment, and ultimately could be totally wiped out. All of Continental's top officers have been replaced. The sign over the bank's door may be the same, but the entity within is vastly different.

The main difference between letting a bank "fail" and rescuing it is what happens to large depositors. In a rescue, all depositors get all their money back, whether it is \$10,000 or \$10 million.

Usually, the government manages to keep the bank affoat, often by arranging to have it merged into a stronger one. The stronger bank then accepts all the troubled bank's liabilities, including deposits. The Federal Deposit Insurance Corp. then puts up enough money to make the transaction worthwhile for the acquiring bank.

In the great majority of cases, where insured deposits made up the bulk of total deposits, the FDIC was able to argue that such an approach was cheaper than paying off the insured depositors. But that was not Continental's case, where insured deposits

Pan Am Places Airbus Orders Worth \$1 Billion

By Axel Krause ional Herald Tribiene

PARIS - In a major breakthrough for the Western European aerospace industry. Pan American World Airways announced in New York Thursday that it had placed firm orders for 28 planes with Airbus Industrie, including 16 A-320s, Airbus's proposed 150-seat jetliner. The total value of the deal, which

may eventually involve 91 aircraft, was estimated by the companies at about \$1 billion, representing one of the largest contracts in commer-cial aviation history.

In New York, C. Edward Acker, Pan Am's chairman, inld reporters gine manufacturers to power the that the prices for the planes as outlined in the letter of intent were 'subject to escalation."

"This deal is highly important for Airbus and for us, and we are pleased," a senior Pan Am execu-tive said in New York. He added that both Boeing Co. and McDonnell-Douglas Corp. had been com-peting intently for the contract. The Airbus proposals made more

sense," he added. In Seattle, a Boeing spokesman said that "naturally we are disap-pointed. We felt that we had put forth to Pan Am the best proposal we could." Pan Am said in July that

t was negotiating with Airbus.

tremely pleased."
Until the Pan Am deal was ancounced, few if any other U.S. airlines expressed serious interest in the A-320, which is due for delivery in 1988. Only Eastern Airlines and Northeastern International Airlines have bought or leased earlier versions of the Airbus.

A total of 91 Airbus planes may which Airbus may help finance through credit guarantees. Mr. quire about 3,200 single-aisle air-Acker said that Pan Am had not yet craft in that category. or take long-term leases on the 28 aircraft, which include 12 A-310-

While the new planes are being built, Pan Am will lease 12 A-300B4s and four A-310-200s, which are part of the consortium's unsold stock. The first deliveries are scheduled to begin by late December of this year for use on Pan Am's Ca-

ribbean routes. In addition, Pan Am has taken options to acquire an additional 13 A-310-300s, a more advanced Airbus, and 34 of the A-320s, which will be used on Pan Am's domestic feeder network and on its Europe-

an routes, the company said. Mr. Acker also said that discussions were underway with U.S. cnnew planes, including the Pratt & Whitney division of United Technologies Corp. and General Elec-

The Pan Am deal represents a major marketing breakthrough for Airbus, whose key shareholders are France's state-owned Aérospatiale, West Germany's Messerschmitt-Bölkow-Blohm, British Aerospace and Spain's government-controlled

CASA group. Earlier this year, the four govern ments involved agreed in proceed with joint financing and produc-tion of the A-320, despite doubts expressed by competing U.S. com-

panies and industry analysis re-A spokeswoman for Airbus said in Paris on Thursday, "We are extremely pleased."

garding its profitability.

Until the Pan Am announcement, Airbus had a intal of 96 orders and options for the A-320 which will be assembled in Toulouse, France, and manufactured by the consortium partners in their countries. Development costs will

total about \$2 billion. But Airbus executives have regularly insisted that they were pro-ceeding with the A-320 on the asbe part of the Pan Am package, sumption that during the next 20 years, the world's airlines will re-

decided whether it would purchase Boeing Receives New Orders

Boeing Co. said it received an 300 planes, and that financing order from USAir for 10 more of its would come from "normal comwould come from "normal commercial channels."

Deliveries are scheduled from between mid-1987 and 1990, Mr.

Acker said ordered from Boeing.

Composition of ECU Is Seen Changing Soon

By Paul Lewis New York Times Service PARIS — European Community finance ministers are expected to agree to changes in the composition of their currency unit known as the ECU at a meeting in Ireland this weekend, European monetary offi-cials and bankers said Thursday.

The ECU represents a basket of nine different European currencies that which has become widely used

The proposed changes, which were agreed on in principal by European central bank governors at a meeting in Basel earlier this week. the weight given in the basket to weaker European currencies, such as the French franc and the Italian

time following Greece's entry to

The proposed changes will not result in any automatic shift in the ECU's value in terms of the U.S. dollar, which will remain at \$0.75. But the reduced weight given to Europe's stronger currencies could lead to new fluctuations in its value against other currencies in future,

some bankers believe. These sources also think the proas a vehicule for international borrowing and many other financial transactions as the value of the doltransactions as the value of the dol-lar and other major currencies be-in France and Italy. And the came increasingly unstable in re. changes are likely to bring about a very slight increase in the rate of interest paid by ECU-denominated

EC countries are required to review the ECU composition every five years and adjust it to take acwill reduce the quantity of Deut-sche marks and Dutch guilders rep-resented by each ECU and increase share of European trade and the share of European trade and the first of the generator. This is the first share of European trade and the size of its economy. This is the first review of the ECU's value they have held since the unit was invented in 1979.

Finance ministers are also expected to agree to place the Greek drachma in the ECU for the first (Continued on Page 13, Col. 1)

West German Exports To U.S. Jump by 47%

By Warren Getler

- With the help of an increasingly strong U.S. dollar, which surged above the 3-Deutsche-mark level the United States rose 47 percent in the first seven months of 1984 from a year earlier, the Federal Statistics Office said Thursday.

Led by automobiles, heavy machinery, chemicals, and steel, the value of West German goods far cheaper for U.S. customers.

Herbert Wolf, chief economist at Commerzbank, said he expects the strong upward tread in exports to the United States to continue in the value of West German deliveries to the United States to continue in the second half.

the U.S. market in the first seven months increased to 24.6 billion DM (\$8.15 billion) from 16.7 bilhon DM a year earlier.

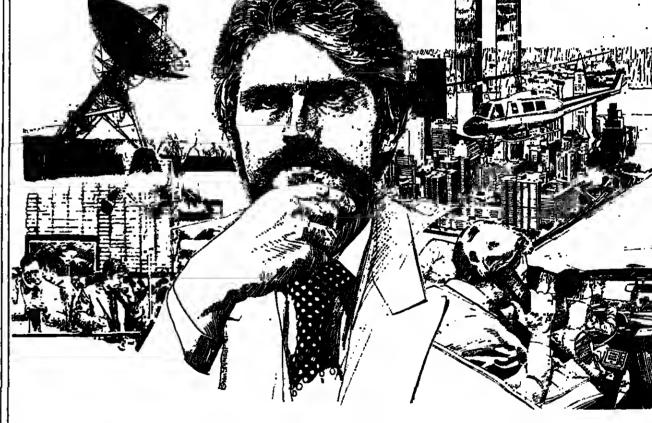

hon DM 1 year earner.

According to the Bundesbank, the West German central bank, that rise in export value pushed the United States into second place behind France and ahead of the Nesh releade. Beitsin and Italy as months, exports will continue to be very strong, supported by a U.S. dollar that I think will average around 2.95 DM for the remainder of the year. In both 1981 and 1982, the United States ranked as the sixth-largest importer of West German goods, with a state of the year."

by expanding U.S. capital invest-International Herald Tribune ment, contrasts to a 12-percent in-WIESBADEN, West Germany crease in total West German exports over the first seven months. The dollar has increased in value above the 3-Deutsche-mark level against the mark by 6.3 percent this week, West German exports to over the first seven months, making

"We can expect to see a 40-per-cent rise in West German exports to the United States in 1984 over last year," he said. The 47-percent rise "for the first seven months is partly due to the weak export per-formance in the first half of 1983. While the second-half rise is likely

their exports to U.S. customers to The sharp increase in exports to 1.4 billion DM in the first seven the United States, fueled not only months from 600 million DM a by the appreciating dollar, but also year earlier.

For the man with exceptional goals, a new dimension in banking services.

Aithough Mr. Lenton emphasized the company is not going to rush into takeovers, he said he would be surprised if Bowater had Friday was not an official strike deadline, but Mr. Bieber had told the company to as-

UAW Studies New Contract Offer by GM

DETROIT — General Mo-tors Corp. made a new wage offer to the United Auto Workers Thursday, one day before

the expiration of a contract cov-ering 350,000 workers.
"We made an economic offer just before lunch," a GM spokesman said, but he de-clined to give details of the proposal. A union spokeswoman confirmed that a new offer had been received and that it was being studied.

Earlier, the president of the United Auto Workers, Owen Bieber, had accused GM of "dragging its feet" and said he sees the contract talks "heading for the ditch" unless GM changes its offers by midnight Friday.

After seven weeks of bargain-ing, Mr. Bieber said Wednesday the company has delivered little that the union wants on job security for its 350,000 members at GM.

LONDON — Reuters Holdings significantly higher rate in the secPLC Thursday announced that its ond half than in the year as a one another and deal in currencies

er period.

. Revenue rose 23 percent to Oct. 5. £141.6 million from £115.3 million, Reut the company's managing director, Glen Renfrew, said.

Mr. Renfrew said: "The results prospectus of profit before tax in the region of £70 million for the whole of 1984, compared with £55.2 million in 1983.

"That forecast was based," Mr. Reofrewadded, " ... on expectations of a significantly lower rate of

Manufacturers in U.S.

Increase Net Earnings

WASHINGTON — U.S. manufacturers in the second quarter had after-tax earnings of \$31 billion, \$4.5 billion higher than in the first quarter and \$8.9 billion above the second quarter of 1983, the Commerce Department said Thursday.

The annual rate of return on stockholders' equity was 14.5 per-cent in the second quarter com-pared with 12.4 percent in the pre-vious quarter and 11 percent in the second quarter of 1983.

using Reuters keyboards and

screens, had become an outstandfirst six months of 1984, from £26.3 pence, an increase of 15 percent ingly successful product, Mr. Rennillion a year earlier.

Profit after tax was 17 percent half of 1983. The board of directors

He add nigher at £17.4 million, compared has declared an interim dividend of new products launched this year with £14.9 million in the year-earli- one penny per share, to be paid on had been good. These included Nov.5 to shareholders registered on graphics displays of market data, historical bonds data and facilities

Reuters became a public limited company through simultaneous listings on the London Stock Exchange and in New York last June, for the first half of this year are in and now has reporting offices in 98 line with the forecast of the Reuters cities around the world. Eight aew offices have been opened this year.

Mr. Renfrew said profit growth in the first half was restrained by costs incurred for several aew products and by continued investment in North America. Some subscriber equipment

shortages, now mostly resolved, delayed receipt of revenue from sales of the Reuters monitor money dealing service and from other products that link Reuter installations with subscribers' own systems, he said,

(Continued from Page 11) lower the share of each ECU re-prested by the Deutsche mark to 32 percent from 37 percent, and cut the Dutch guider's share to 9.9 percent from 11.3 percent. The Danish krone's share will fall to 2.6 percent from 2.7 percent.

But the French franc's weighting in the ECU will rise to 19 percent to 10.4 percent.
The share of the Irish pound will

rise slightly to 1.3 percent from 1.1 percent, while the British pound's share will remain constant at 15 percent as will that of the Belgian franc, at 8.5 percent.

The drachma is to account for 1.3 percent of each ECU in future. If approved, these changes in the ECU's composition will take effect from the opening of markets next

Bankers believe that international borrowers in European countries with relatively weak currencies will find it increasingly attractive to de-nominate their ioans in ECUs as a result of these changes. This is because the greater weighting to be given to their national currencies in the new basket will reduce the forcign exchange risk they must bear.

But the increased weight proposed for the franc and the lira also means that the cost of borrowing ECUs will rise slightly.

ECU Changes Should U.S. Banks Receive Bailouts?

accounted for only \$3 billion out of \$40 billion in liabilities. To rescue Continental, the FDIC had to com-mit about \$4.5 billion, and the Fed-eral Reserve System had to agree to lend billions more. In contrast, in those rare cases

when a bank is allowed to "fail," the FDIC merely pays off insured deposits. A \$1-million depositor would immediately get back \$100,000 from the FDIC, but would have to wait to see how much above that amount, if any, he would receive

For Faihare Policy

The basic argument of those who urge that banks, including big banks, be allowed to fail is that, over the long run, this approach would create a sounder banking system by imposing "market disciline" on the banking industry.

With a government guarantee of all deposits, even the most sophisticated large depositors — such as other large banks — need not be selective in choosing a bank for

more to attract deposits. Conserva-tive depositors would accept lower interest rates in return for greater safety. Depositors willing to accept greater degrees of risk would ob-tain equivalently higher interest rates on their deposits.

ly unfair, some say, because it gives far too late. major banks an advantage over smaller ones. While the govern-ment occasionally allows a small bank to fail, it has indicated that it

would always rescue a large one. Against Failure Policy

banks from failure, especially the major banks, say the banking system has a unique role because of its Those who advocate rescuing responsibility for safeguarding

The widespread belief that the government would stand behind the big U.S. banks has created a stable financial system that has made possible rapid economic growth. In contrast, before the current system, the United States regularly had been shaken by financial panics and depressions.

Worrying about whether payroll

and other accounts are safe could sap much energy and time from the assure that holders of common and economy and create a less stable preferred equity were fully at risk.

system. The task may be impossible, bank-rescue proponents say.

CENTRAL ASSETS without a blanket guarantee by the government, banks that purest to judge the soundness of a sued riskier policies or that were bank. Practically every large bank that collapsed in recent years, or collapsed, had been highly nearly collapsed, had been highly touted by bank-stock analysts: Continental Illinois, Scattle-First National Bank, Penn Square Bank of Oklahoma City, and First Penn-sylvania Bank. Even bank regula-

The Outlook

Despite the strength of the free-market school, it seems unlikely that any laws will be passed that would effectively prohibit the government from rescuing large banks in danger of failure.

any major bank to fail and its do

But laws might be enacted that would make it easier for the authorities to protect depositors without also protecting other creditors of the bank or its parent holding company. That had been a problem in the rescue of Continental, where for technical reasons, the govern-ment wound up backing about \$1 billion in debt owed by the bank's

holding company.

Laws also might be written to

Pharmacia AB, a Swedish bio-ucknology and health care compa-ny has appointed Rolf Classon as president of its ninth U.S. subsidary to be called Pharmacia Development Co. Inc.

Mr. Classon is currently president of the company's hospital products division in Uppsala, Swe-

The new subsidiary will be located in New Jersey. It will buy minor-ity shares in small, high-technology companies within the biotechnology-pharmaceuticals, and diagnos-

al division. The bank has also ously managing director, has been named Masahiro Kimura represennamed chief executive of Midland tative in Frankfurt. He was former-

ly the bank's representative in

Sauwa Bank, has appointed Miin London. He will be responsible Gulf International Bank in Lon-

Shell Markets (Middle East) Ltd. has named John A. Pearce general manager for the United Arab Emirates, succeeding James McGrory, who becomes managing director of Shell Colombia. Mr. Pearce for merly was based in London as seminary was based in London as s the Far East as Shell International

Midhad International Australia, a Sydney-based unit of Midland gy-pharmaceuticais, and unagnosnet fields.

Fuji Back Ltd. has appointed
Kusuo Shigyo its chief representative of its office in Frankfur. He
was previously based in Tokyo
where he was the bank's assistant
general manager in the internation
of division. The bank has also

Habitat Mothercare PLC has appointed Kevyn P. Jones Mother-Samua International Ltd., the care Group managing director in merchant bank subsidiary of London. He was previously chief Sanwa Bank, has appointed Michael Constant executive director The company has also appointed three new chief executive officers: for marketing and syndicated lending for Europe, the Middle East of store operations of Mothercare and Africa. He was formerly with U.K.; Eckart Matthes, previously and Africa of Mothercare under the was formerly with U.K.; Eckart Matthes, previously and Matthes of Mothercare under the was formerly with U.K.; Eckart Matthes, previously and Matthes of Mothercare under the was formerly with the same of the control of the con U.K.; Eckart Matthes, previously president of Bilka Kaufhaus GmbH, a German department store chain; and Daniel Schwarz-

Abram & Strans. Shearson Lehman/American Exnior adviser to the coordinator for vision in London Mr. van der Pahlen was previously directeur central of the Banque de la Société Finan-

walder, formerly vice president of

Scandinavian Airlines has ap-pointed Ingmar Grimhusen vice president, finance and treasury, in Stockholm beginning in October. He was previously a vice president in the Swedish capital at Skandinaviska Enskilda Banken International, a unit of Skandinaviska

-By LYNNE CURRY

Two Executives Are Promoted At Paramount

LOS ANGELES - Frank Mancuso has been promoted to studio chief of Paramount Pictures and Arthur Barron, to the presidency of the company's parent company, Gulf & West-

The two, whose promotions were announced Wednesday, will replace Paramount execu-tives Barry Diller and Michael

Mr. Eisner, 42, recently re-signed from his eight-year posi-tion as president of Paramount. He was a close ally of Mr. Diller, who resigned Tuesday to become chairman and chief executive officer of 20th Century Fox Film Corp.

Mr. Eisner said he was leav ing Paramount to enter negotiations with another company.

Mr. Barron, 50, had been ex-Western's Entertainment and Communications group. Mr. Mancuso, 50, had been president of the motion picture

BARBICAN at the top.

A most desirable residence in the City

In the past, if you were 'somebody in the City' your place of business would be the last place you'd look for a 'most desirable residence' to make your home. Barbican at the top' has changed all that.

Now some of the most prestigious homes ever built in London have made it possible: the 'Penthouses' at the top of the three towers that rise from the secluded precinct of the Barbican.

These 2 and 3-floor apariments, over 400 feet above the world's busiest money market, are among the highest in Europe. To a class apart, they are built for total space-age comfort: spacious living rooms, terraces and balconies, commanding some first-timeever views of Londoo and beyond. Most have 4 bedrooms some 5 - and almost as many bath and/or shower rooms. The largest have conservatories or roof rooms large enough for billiards or table tennis.

With the bonus of the Arts literally on the doorsten in the Barbicao Ceotre below, 'Barbican at the top' has a unique luxury package to offer anyone who wants to enjoy life to the full - in the Clty.

For further details and an appointment to look around write or telephone the Barbican Manager, Barbican Estate Office, Londoo EC2. Telephone 01-588 8110 or 01-628 4372.

BOOKS

THE WAR OF THE END OF THE WORLD

By Mario Vargas Llosa. 550pp. \$18.95. Farrar, Straus & Giroux, 19 Union Square West, New York, N.Y. 10003.

Reviewed by Richard Eder

A STRANGER appears in Brazil's parched back lands, preaching a Pentecostal gospel laced with a quaint political message. Antichrist is everywhere, he tells the impoverished country people, now that a republic has replaced the Brazilian emperors. The world is to end in a few years — it is the late 19th century - and he gives details. In 1896, the sea will invade the land. In 1898, hats will grow higger and heads smaller. In 1899, a new planet will be created. "The villagers." Mario Vargas Llosa writes, "strained their memories before the fact in order to be certain to remember the

With his lean figure, his burning eyes and a manner both fierce and otherworldly, the Counselor, as he is called, draws to himself peasants, madmen, bandits, small shopkeepers, derelicts and a few renegade priests. He goes from village to village, repairing neglected churches and cleaning cemeteries. Death is more important than life, is his message; one must be hursed properly in order to go to

The Counselor and his disciples rip down the local tax decrees because they were issued by republican anthorities. There is a bloody clash or two with the police, and the band retreats to an isolated settlement called Camudos. In the next few years, disciples pour in, and Canudos becomes prosperous and mili-tantly isolated, a mix of loving Utopia and intransigent theocracy.

An army company, then a battalion, then a regiment are sent to subdue it. They are successively destroyed by the hymn-singing, bell-ringing, whistle-blowing peasants, who muti-late the troops and stick their heads on stakes. It takes an entire army corps with heavy artil-lery and a siege that lasts months and costs tens of thousands of lives to pound Canudos into dust and torn flesh.

"The War of the End of the World" is a large and thoughtful parable about Third World revolution. Vargas Llosa, a Peruvian and one of Latin America's finest writers, has used a fictional exemplar, but it reflects the oddly mixed attributes of his own country's Shining Path guernillas; that group has fought off the government with armed atrocities and a faith that appears to be a jumble of Marxism and

mysticism.

His novel of peasant visionaries, pious bandits, back-land planters, fiery republican colonels, ambitious politicians and wandering ideologues is built upon an irony. Canudos is not ahead of the 19th century's turbulent liberalism, nourished on the French Revolution and the steam engine, but behind it. Its primitive communism, with goods distributed according to need, stems from the Counselor's refusal to use the national currency because it bears republican symbols instead of the emperor's face. If there is a kind of regulated free love, it is only because he rejects republican civil mar-

The irony gives life to Vargas Llosa's central theme. Revolution in Latin America is more of a spiritual force than an ideological one. It is a

pent-up energy in a populace equally isolated from its rulers and its rulers' opponents by poverty, deprivation, native tradinos and the poverty, deprivation, native transposs and the vast bleakness of geography. Cannotos is as little understood by the Scottish anarchist. Gall, who tries to smuggle in arms, as by the republican oligarchs in Rio and the baronial landowners in Bahia.

"The War of the End of the World," parable aside, is also a book of grotesque detail and endless incident. Battles are set out min so are conversations, landscapes, political in-trigues and the biographies of dozens of characters. It is Trollopian, m a way, if one can imagine a lunar Trollope of the apocalypse

Detail does not work as well for Variate Llosa as for his contemporary, Garcia Mis. quez. The Peruvian's writing lacks the other surreal inventiveness of incident and character and it can be wooden. The endlessness of the land, the violence, the poverty, the heat the sheer ferocity of life, are conveyed by an acramulation that sometimes blurs and loses inc.
tity. The characters are vivid — the County or's variegated followers, the obsessed colone who goes after him, an aristocratic landswin seeking to understand what is happened although not, in themselves, especially interes

But Vargas Llosa is not after the phenomenon of character. He is after the phenomenon of conversion. Canudos is a prophetic, ables ranean earthquake hitting a society that is part feudal, part modern and quite lacking in a sense of its identity. Into the tremors he throws a succession of figures who come to life not by what they bring with them, but by how they are

Gall, the idealist, tries to get to Canadoubu never makes it: perfectly self-engrossed and determined to impose his radical ideology, he ends up raping a peasant woman and fighting her husband to mutual death. Colone Morcira, the flamboyant officer who leads a me-ment against Canudos, is undone equally by his arrogance and his imagination, Baron Canabrava, leader of Bahia's reactionary landows ers, loses his property to the Counselor's folowers; but here the result is both breakdon and illumination.

If the book has a protagonist, it is a jointed ist who covers the military expeditions again ist who covers the military expeditions aging Canudos. He is nervous and tunid and came see without his glasses; Vargas Llosa's unit name for him is "the near-sighted journalist," and he is the author's alter ego.

Those glasses are civilization, and civiliza-tion's faith in its perceptions. The journalist has been following the ill-fated Colonel Mo-leira with a mix of admiration and skepticism The skepticism grows until be comes upon the coloner's head impuled on a stake and, started, shatters his glasses. A peasant woman succes, him, leads him into Canudos and cares for him there. Divested of sight, he sees through he eyes as the settlement dies borribly and cher-

fully under the army's cannons.

It is not a political conversion. The journalist has not gone over to the strange fanaticism of Camados. But he has lost the vision he brough with him from the city. He, and Vargas Liou, are trying out a new vision in order to milestand what is happening to a continent whose energies go beyond the visions of Washington and Moscow, of Lima and Rio de Janeiron abun San E Ye for that matter, of Havana.

Richard Eder is on the staff of the Los Single

nament, will play the winner of Thursday's Soviet Union-Canada game in the best-of-three championship round, which begins Sun-Losers, 7-1, to the United States

in the opening game of the tourna-ment, the Swedes quickly gained their revenge. Led by Looh, who was on the National Hockey League all-rookie team last season for the Calgary Flames, and Steen, of the Winnipeg Jets, Sweden went ahead, 2-0, in a span of 14 seconds. Loob picked up the puck in the

slot after it bounced off the skate of a U.S. defenseman, Chris Chelios, and shot over the glove of goalie Tom Barrasso at 5:34. At 5:48, Steen was left unchecked in the slot and put a 25-foot shot past Bar-

The Swedes turned the game into 'a rout later in the period with two Swedes, out of a population of more goals within 38 seconds. Per-Erik Eklund banked a backhander al team. off Barrasso at 11:10, theo Loob got his second of the night on a 2after a victory, said the Swedish on-1 break.

the game. He was replaced by ment ever in Swedish hockey."

Steen connected again at 10:10 of the second period when he tipped in a power-play slapshot by Peter Andersson. Just 1:45 later, Thomas Gradin of the Vancouver Canucks made it 6-0 with a wrist shot over Resch on a 2-on-1 break.

The Americans, who finished second in the round-robin portion of the tournament with a 3-1-1 record, didn't get started until it was

Their two goals against the Swedish goalie, Peter Lindmark, were by Brian Lawton and Ed Olczyk in the third period. But Sweden, which was third in the round-robio with a 3-2 record, got power-play goals from Mats Thelin and Loob to offset the U.S. goals. Kent Nilsson of the Flames, who had four assists for the Swedes, finished the scoring with 1:55 re-

VANTAGE POINT/Thomas Boswell

SAN DIEGO - Let's just walk oo over here to the

batting cage and see if we can meet Tony Gwynn, the

leading hitter in the National League.

It shouldn't be too hard to spot a fellow who is

hitting 351 and leads the National League batting

race hy 32 points. What a specimen this guy must be. Has 197 hits already and is headed for 225. Steals

bases (28). Hits with some extra-base power, drives in

a bunch of runs (64), even though he bats No. 2 for the

right fielder with a strong and accurate arm, plus

speed to burn. A guy who leaps above ontiteld fences

Why, Tony Gwynn was such a basketball star at San

And he's young, too, just in his first full season in

the big leagues after partial seasons in 1982 and '83.

At 24, people are already talking about Gwynn as, perhaps, being the next .400 hitter.

Let's see, he must be around here somewhere.

Himmin, No. 19. Never seen him up close. There he is!
No, that can't be Tony Gwynn. Who's stolen the
batting champ's uniform? This must be a joke.
This guy's a little fat kid. Maybe 5 feet 9½ inches

(1.77 meters) at the most. He's pudgy everywhere and

there's not a muscle in sight. He may weigh 185 (84

kilograms), but it's a soft, misproportioned 185. This can't be the fellow who batted .331, .462, .328, .342 and .368 in the minor leagues and winter ball; this

If this butterball tried out for a high school team,

you wouldn't oecessarily pick him as a starter. He looks about 16 years old and his voice is high-pitched and innocent. Wait till the real guy shows up — the beast who hit in 25 straight games last year and is better than 400 this season with men on base.

Look at the silly little bat this guy's using. Who's he

kidding? Why, it can't be more than 32 inches long and 31 ounces. Nobody in the majors uses a bat anywhere oear that small. You can find bigger bats in

Okay, let's see the imposter swing. There, knew it,

knew it. That's oot Gwynn. This fraud doesn't swing. He just pecks at the ball. He can barely get a ball out of

the infield in batting practice.

No more fooling around. It's time to unmask this

interloper. Might as well hear what he has to say. After all, if he really were Tony Gwynn, he'd bave an enormous ego; all his coaches say be's a complete

player, a smart, polished veteran at a young age.
His batting coach says, "I've never seen a guy with
so much confidence with (wo strikes." His teammate,

Graig Nettles, says, "Nobody's handled him all year.

And he just sits back, enjoying it." The real Tony Gwynn would be talking about how he made the All-Star team, earns \$200,000 a year and is headed on up.

"I'm pretty limited in what I can do," says the guy wearing Gwynn's uniform. "Until this year, I hit

everything to the left of second base. I'm just starting

to learn to pull the inside pitch to right... I slap, poke, chop. Whatever it takes. I just try to put the ball in play and make them get me out. There's still a lot of the game that I don't know. I'm not even close to a

complete player yet. I'm not patient enough. I don't have the discipline to take a 2-0 pitch if it's not what I was looking lor."

Enough is enough. Where's the real Tony Gwynn?
Let's find a savvy old coach and make sure. Excuse
us. Harry Dunlop. We're just looking for Tony

Gwynn, "Thar's Gwynn — No. 19," says Dunlop, "You'd

never pick him out, would you? He's got a body like

Yogi Berra, Thurman Munson and Bill Madlock.

Gonna have to fight a weight problem his whole

aged [in the minors] at Las Vegas, all I heard was how

great a basketball player this Tony Gwynn was. You

should have seen Gwynn kill the University of Nevada-Las Vegas. He's some runnin' guard.' I couldn't wait to manage him and then one day this guy shows

Dunlop grins, "Tony always stays within himself

and that's so rare in a young player. ... He's cheerful

surprises.

old waiter, John Benson, during the fight, which occurred in the early morning of last Sept. 30 at Studio 54. Gastineau was acquitted of charges that be assaulted two other men during the brawl. Peter Mocrison, Gastineau's law-The Real Tony Gwynn Stands Up

yer, said the player would decide whether to file an appeal "after the feeling that we're feeling right oow recedes." Such an appeal would oot pearance in court, which cost him a great deal of practice time during the last month.

Pending any appeal, sentencing was set for Nov. 20; Gastinean's 28th hirthday. The maximum punishment is a \$1,000 fine and a year in jail, although a jail term is highly unusual in such a case, particularly when the defendant, like Gastineau, has no prior criminal record. Joe Browne, a spokesman for the National Fontball League, said it would review the case against Gastinean and could take action against him. Such a review willoffense, although he might be fined arm-wrestling by the league.

The verdict came after a trial One of his teammates, quarterback that, because of the large oumber of witnesses and lengthy cross-ex-A six-member jury in Manhattan amination, lasted three and a half weeks, making it one of the longest misdemeanor trials in recent New

> "It's a very big shock for me," Gastinesn said as he left the court-room, released in his own recognizance by Judge Alan Marrus. "It's a big farce that the jury voted like that. I've lost a lot of faith in the judicial system. The system's not

Gooden Strikes Out 16, Sets Record for a Rookie Pitcher

By Joseph Durso New York Times Service

NEW YORK - In a dazzling display of virtuoso pitching by a 19-year-old rookie. Dwight Gooden fired the New York Mets to a 2-0 victory over the Pittshurgh Pirates on Wednesday night, struck out 16 batters and hurtled past a najor league strikeout record set by Herb Score.

The tall and tacitum righthander overpowered the Pirates on five hits, gave no walks, pitched his second successive shutout, won his

BASEBALL ROUNDUP

16th game against eight losses and ended the evening with more strikeouts than any other rookie in baseball history.

He passed that milestone in the sixth inning when he struck out Marvell Wynne. It was his 11th strikeout of the night and the 246th of his brief career in the big leagues, and it broke the record set by Score for the Cleveland Indians 29 years

But there was more. By the time he had finished the joh. Gooden had a total of 251 strikeouts in 202 innings in 29 games. And he also had broken Nolan Ryan's club record of 14 strikeouts by a rookie in game, and Tom Seaver's club record of 14 games with 10 or more

He also kept the Mets breathing in a pennant race that probably was as dead as the records. They remained seven games behind the Chicago Cubs, who won earlier in the day, with only 16 games to play. But, on one night of dramatic pitching by the youngest player in the big leagues, the Mets at least subdued their disappointment over their losing chase in the National

Gooden, who pitched a ooe-hitter against the Cubs last Friday night, now has won seven straight games and 16 in his first season Standing among television past the Carolina League, where be crews' klieg lights in a courthouse struck out 300 batters in 191 inhallway, O'Brien, who lost his spot mings last year. SPORTS BRIEFS

Ireland Beats Soviet, 1-0, in Soccer

DUBLIN (UP1) — A 65th-minute goal by striker Mickey Walsh gave the Republic of Ireland a stunning 1-0 victory over the Soviet Union in their opening World Cup qualifying match in Dublin on Wednesday. In Stockholm, Portugal defeated Sweden, 1-0, in their opening World Cup qualifier when Fernando Gomes converted the match's only scoring chance after 79 minutes. Gomes dashed into the Swedish penalty area to beat goalkeeper Bernt Ljung on a pass from Augusto Inacio.

In other World Cup matches, in Oslo, striker Andre Egli scored a fourth-minute penalty to give Switzerland a 1-0 victory over Norway; in Belfast, Northern Ireland defeated Romania, 3-2, and in Reykjavík, lceland shocked Wales, 1-0, as Magnus Bergs beaded bome a corner after

Soccer League Discusses Cutbacks

NEW YORK (AP) — Executives of the financially troubled North American Soccer League discussed Wednesday a plan for league retrenchment and Iranchise mergers for next season.

The New York Times said the executives determined that several

recommendations in a plan submitted by Clive Toye, chairman of the Toronto Blizzard, would be refined before discussions resume after the Soccer Bowl championship series oext month. Among the recommendations are a reduction in the number of teams from 8 to 6 and a shortened schedule from 24 games a team to 16.

Winslow Returns to NFL Chargers

SAN DIEGO (UPI) — Kellen Winslow, the all-pro tight end, ended a brief retirement hy agreeing Wednesday to a new multi-year contract with the San Diego Chargers, the National Fonthall League team announced. Terms of the contract were not disclosed.

Winslow, 26, has played in four successive Pro Bowl games. He left the team Sept. 3, expressing dissatisfaction with the Chargers' efforts to renegotiate his contract.

For the Record

Sean Kelly of Ireland won the 64th Tour of Catalonia bicycling race Wednesday in 30 hours 46 minutes 44 seconds. He edged Pedro Munoz of Spain, who had the same time but lost on partial classifications in the

seven legs.

John McEnroe defeated Bjorn Borg, 7-6, 7-5, Wednesday night in an exhibition match in Kansas City. The match was part of McEnroe's five-city exhibition tour, which he began after winning his fourth U.S. Open

Lumps From a Yumpie

By Russell Baker

Ne're talking information explosion," he said. "I want to help you handle it. Therefore..." yumpie was born, it never crossed my mind he would grow up to be a

yumpie? Only if you are old or read history would you believe that, because in those days yumpies had never been heard of. No kidding.

After the birth my wife and 1 was, be was not a yuppy, since that is shorthand meaning "young urwhole get together with friends who less than professional" and he was not who had also enjoyed recent births urban because be keeps an apart-

in the family, and the conversation ment in town, a tax shelter in the would be: What is your kid going suburbs and a weekend tax shelter to be when it grows up? The an-swers you got wouldn't be believed

People would say things like "airline pilot." "Psychiatrist." "James Joyce scholar."

Expense account swindler." Nobody ever said, "yumpie — I wanı my kid to be grow up to be a

What did we know? It was only 1951. Maybe 1953. We were too dumh to say "systems analyst" or "computer programmer" or "laser when asked what the kid would be when 1984 rolled around.

Why am I sentimentalizing like this? Because my soo the yumpie came by an hour ago while I was out bowling and left me a brand new leather dispatch case. Very ex-pensive. Made by those Italians whose stores I never go into be-cause I'm afraid they will soub me

yumpie, 'f I say,
So he gives it to me straight from
the shoulder: He intends to vote for for wearing the wrong shirt.

My son left this note: "Dad: After all these years I wouldn't try to stop you carrying fried hologna sandwiches to the office for lunch, but with this nice dispatch case you'll no longer bave to carry them in a brown paper bag. With love

from your son the yumpie."

Notice how he spells it. Not yuppy, not yumpy, but yumpie. He had me to supper one night with his live-in sweetie after be heard I'd been bragging about my son the yuppy who was a lawyer in charge of the tax-chiseling division of an

offshore pet food chain.
"Dad," he said, "in your days
you didn't have silicon chips so you lidn't know how to handle the in-

"We didn't have live-in sweeties, either," I said "Sweeties were tougher in those days."
"We're not talking sick and un-healthy old-fashioned morals, Dad.

New York Times Service

that you've got something interest-ing to say. The long and short of it

Nor is he a yumpy, a word that

connotes "young upwardly mobile professional clod."

"It's the y on the end of yump that's all wrong," he said, "because

it makes the yumpy look lumpy."
Yumpie, on the other hand, ends

with the word pie, thus suggesting

that the young upwardly mobile professional's life is a piece of pie, a

piece of cake, or a bowl of cherries,

or something. I don't get it either,

but I don't care. If my son wants to be a "yumpie," O.K. with me.

phone the kid about it and say, When my son the yumpie wants

his dad to hide the fried bologna in

a suitcase, he is talking something

more serious than bologna, right?"
"I will speak to you like a Dutch
uncle," says the boy.

Reagan. He does not want a yum-

pie Reagan voter's dad to be seen

brown bagging bologna sand-

For my son the yumpie, I'll carry the bologna in the suitcase until

after the election, "But why Rea-

gan?" I ask.
"I owe it to Gary Hart, who stood for new ideas," he says.
It's a puzzle, "Reagan's ideas are

even older than I am," I say,

thoughtlessly leaving him an open-ing to say, "Nothing's that old, Dad," an opening that be doesn't

seize. I guess I knew he wouldn't.

He is a yumpie, Instead he said, "Maybe I could get you a nice leather hatbox, Dad — made in

Londoo - to carry your bowling

"No, speak to me like my son the

Back to the \$500 dispatch case. I

Washington Past Service UELVA, Spain — The bull, HUELVA, Spann — seeing finally dead, was being dragged away by a team of mules The boy can be long-winded. And why oot? When you're 33 it's easy to labor under the delusion harnessed as if to pull a heavy

The matador walked slowly to the center of the bullring carrying his montera, the bullfighter's cap, in his right hand. Miguel Baez known as El Litri -stooped and filled the cap to overflowing with sand from the ring and then bent his head to kiss the sand, tears streaming down his cheeks.

By Tom Burns

Bullfighting makes demands on the sensibility and emotions of its devotees, and on their intelligence and knowledge of the spectacle as well. At the end, the aficiocado feels drained aod

This emotional outpouring, or collective catharsis, was total last month when El Litri stepped out of a 17-year retirement to fight the bulls once more in the fiesta of his hometown of Huelva.

And then, with the arrogance and sense of theater of a matador who has become legend, having proved at the age of 53 that he could still do it, El Litti bowed ont again, back to his comfortable life as a successful rancher

El Litri's brief return to the buils was a proud pledge fulfilled. Huelva is a small provincial capital in the deep south of Andalusia, close to the Portuguese bor-der in the southern Spanish belt that is the home of flamenco, bulls and women out of "Car-

Bn: Huelva is out of the way; it doesn't boast cathedrals and Moorish remains, and it has no pretty whitewashed patios alight with geranium pots as do Seville, Granada and Cordoba, which are on the tourist map. Huelva, however, has El Litri.

For once the national oewspapers that are published in Madrid took oote of what was happening down here in Huelva.

The moment of truth in a bullfight comes at the instant when the matador, having squared up the bull, stands 6 feet from the heaving shoulders, sighting his sword in his right hand and holding his furled muleta, the red cloth, in his left hand. The mata-intimately linked to dor pitches forward, and his mu-

El Litri in 1955: He made a fortune as a star among matadors.

leta guides the horns away from his gut while the right hand, hold-ing straight, hits the base of the

"May the Virgin be with you, Miguel," breathed a matronly spectator in the stands of the Huelva hullring as El Litri squared up to kill.

The heavens, however, were not with El Litri when he killed his last bull in his hometown the last bull, he says, he will ever kill in public. He went in straight but hit the bone, and then hit the bone again and again. The bull finally died, even more exhausted than El Litri was. It was not a spectacular death or a climactic bowing out. But it did not matter. The Huelva crowd was on its feet

paying tribute to its matador.

The return of El Litri to the bullring and the reception that awaited him was an indication of the pull that builfighting contin-ues to exert in Spain and, in particular, of the hero worship involved. In the case of the Huelva festival the hero worship was en-tirely understandable. El Litri is intimately linked to his homeA glance through the builfight handbooks published in Spain re-yeals how El Litri retired from the big time in the mid-1960s, having de a fortune after more than a decade as a top star among mata-

dors. Purists of bullfighting never liked him, saying his only asset was his courage. El Litri's special-effects trick, which non-purists adored, was to look up into the stands at his fans as the bull was rushing past him, its borns inches from his body.

El Litri came back in August for a couple of fights in Huelva not because of the money he, earned —\$50,000 for killing four bulls in two afternoons. The comeback was a matter of pride, one of the chief characteristics of

For the previous two summers Huelva had been deprived of bullfights during its August fiesta. The high point of the festivities is Ang. 3, in commemoration of Columbus's first discovery voyage, which began across the estuary of Huelva's Rio Tinto at Palos, then a fishing village. The builtights had been suspended

because a new bullring, that was built to replace the traditional one 10 years ago, was in danger of

El Litri, although retired as a matador, was determined as a point of honor to bring bullfighting back to his hometown for the fiesta. A local builder offered to put up the money to refurbish not the new plaza de toros but the old one, which was apparently cheaper to get in shape. The deal was that El Litri would return to the bulls to get the fans going again

It was an offer El Litri could not refuse. His father, also named Miguel Bacz and the first of Huelva's El Litri bullfighting dy-nasty, had fought in the old bull-ring's inaugural program in 1902. He was a so-so matador who never quite made it.

The senior Bacz had a son, Manuel, who became a matador and also fought under the name El Litri. Manuel was killed at age 21 in 1926 by a bull in Malaga's bullring. His father, at that time a widower, married Manuel's fiancee, and the present-day Litri was born of the marriage.

A Matador Comes Back, and So Does His Town

spans the century, is folklore in Huelva. The current Litri was made rich by the bulls. He owns fishing boats in Huelva, a big ranch outside of town where he breeds fighting bulls and real es-

tate elsewhere. He keeps an

apartment in Madrid. There was oo doubt that El Litri would be back in the ring, despite his long retirement, for the reopening of the old plaza that his father had inaugurated. From the spring onward be stopped drinking, began running five miles (eight kilometers) a day and trained ceaselessly with the bulls of his own ranch.

He reappeared at the Huelva builfight festival looking more or less slim (the matador's tight-fitting "suit of lights" is a give-away), was more or less agile in front of the bulls and, again de-pending on the way one looked upon it, was either the quintessence of experience and savvy or slightly past it.

What El Litri, his hair oow graying, actually did in the ring was of lesser concern. On occasion he did once more pull it off. Some of the magic was still very much there.

Up on a high ridge, overlooking the Huelva bullring, were per-haps 3,000 people, El Litri rans every one, who crouched against the escarpment to see the great man for free. They, as well as the capacity crowd that had paid \$10 or more to fill the refurbished old bullring knew they were watch-ing a moment of bullfighting history, at least as far as Huelva, its matador heroes and its renewed bullfighting fiesta were coo-

El Litri, at the death of his last bull, clutching his montera full of the ring's sand against his hreast, crying, spent several minutes blowing kisses to the crowd in the stands and to those up beyond the plaza on the high ground.

His parting contribution was to say later that within a couple of seasons his son, Miguelito, would be fighting in the Huelva bull-ring. Those who have seen him, caping the bulls on his father's ranch, say that young Miguel, now 15, is a chip off the old Litri block. The future of the Huelva builfight fiesta appears assured.

Norwegians' Viking Ship Makes Stop in New York

Ragnar Thorseth of Norway and his crew of six bave arrived in New York in a Viking ship. The crew is attempting to duplicate Leif Eric. son's voyage. Some scholars believe that about the year 1000 Encason's Vikings explored the shores of North America after he and his crew sailed from Norway in 50-foot (15-meter) wooden boats. Therseth's 56-foot ship, named Saga Sielar, sailed from Norway June 17 Before reaching Manhattan Wednesday it had stopped in the Faeroe Islands, Iceland, Green land, Nova Scotia and Boston, It docked in New York for a week's inspection by the public before continuing its voyage around the

Bob Guccione, publisher of Penthouse magazine, says he has 300 color slides of one of this year's Miss America contestants posing in the nude and will publish them if she wins Saturday's contest spokesman for Guccione said he would not say which of the 51 contestants appears in the photographs. Miss America 1984 anessa Williams, stepped down when oude photographs of her and another woman appeared in Pen-house. Guccione said the picture of this year's contestant were taken about t8 months ago.

A stripper in a gorilla suit sent to Philadelphia's mayor, W. Wilson Goode, for his 46th birthday has provoked calls for an apology from the city representative whose aid hired the performer. The "gorilla-gram" offended Leah Gaskin Fachue, executive director of the Philadelphia Commission on Homen Relations, who demanded "an apology to those persons who were present at the Aug. 17 party. Dianne Semingson, the representstive, said there would be no apolegy even though she, too, was "shocked, embarrassed and disap-pointed" by an action of a staffer done without her knowledge.

Tom Wicker, columnist and associate editor of The New York Times, will receive the University of Arizona's John Peter Zenge Award on Oct. 18. The annua award bonors journalists and others who "fight for the people's right
